Mr. David Stacy, PE with Performance Based Fire Protection Engineering in Pittsboro, NC was hired by Radler, White, Parks and Alexander, Attorneys at Law to perform consulting work in the State of Oregon.

Mr. Stacy compiled and submitted comment into the Multnomah County Land Use Record for application T3-2022-16220 on August 7, 2023 without having a Professional Engineering License in Oregon.

Mr Stacy's comments are entered as *Exhibit I.91 Fire Protection & Life Safety 3rd Party Consulting Review rec 8.7.23* in the record for Multnomah County Land Use Application T3-2022-16220.

Mr Stacy did not have an active License issued from the Oregon State Board of Examiners for Engineering & Land Surveying (OSBEELS) to practice in this state at the time of his submittal to Multnomah County.

The two following emails from OSBEELS, both dated AUG. 15, 2023, confirm this statement. They are also attached.

Yes, Mr. Stacy submitted an application for registration to practice fire protection engineering. He requested and was approved a temporary permit to practice until his application is formally approved at the September 12, 2023 Board meeting.

If you have any further questions or concerns, please feel free to email me.

Applicants have the option of requesting a temporary permit to expedite the review of their application at an additional fee of \$100.00. I reviewed his application, found it to be sufficient and issued him a temporary permit. His temporary permit is valid from the issue date (8/15/2023) to the Board meeting date of September 12, 2023.

I hope this information is helpful and please feel free to email me if you have any questions or concerns.

Hi again Tina,

I'm really not trying to bother you but you gave today's date (Aug 15, 2023) as the date that Mr Stacy received his temporary permit. Am I understanding correctly that today is the day that he was permitted to begin practicing as a fire protection engineer in Oregon?

Thank you, you've been very helpful,
Sue Crosby

You don't often get email from suzcc@me.com. [Learn why this is important](#)

Tina, so nice of you to respond,

Is it typical to request a temporary permit so the person can practice in Oregon prior to their formal license approval and on what date was his temporary permit issued?

Thank you for your assistance,
Sue Crosby

Tina,

I am trying to find out if there is a current application for David Stacy (possibly under business name: Performance Based Protective Engineering) for an Engineering license in the State of Oregon. Guessing the engineers working with fire would be a Professional Engineer.

If he has applied recently is his application still pending or finalized? What date did he apply and if granted what date was that? I have some paperwork from a report stating that his Oregon license is pending.

Thank you,
Sue Crosby
