Carl is a second-generation resident of Washington County. He attended schools in Metzger and Tigard and was the first in his family to graduate from college.

Our district is engaged in projects that will create more stability and resiliency in our water supply system over the coming years. The Willamette Water Supply System is moving forward with a completion date in 2026. This project will ensure Washington County has access to safe, clean, and reliable water for the next generation.

We have created a low-income customer assistance program that will help our most vulnerable community members assistance in paying their water bills.

Access to clean and reliable water is the foundation of healthy communities.

Carl's Priorities

Affordability: No matter your income, you deserve access to water.

Resiliency: Our water system must be ready to rebound from all kinds of disasters.

Conservation: With the increasing frequency of climate events in our region, we must work with other local governments and citizen groups to share and expand best conservation practices.
