  - Continuing to modify - Jairaj - modified the health sections to focus more on the health impacts
- Shared a preview of the draft design – this is not the final design!
  - **Change side box fonts (hard to read) – different fonts is fine but make it readable**
- Press release - would love to get quotes from you all
- Feedback
  - Less abrupt with the approach in community engagement (it goes from CJXD to earth day and we could use more context)
  - **Need to add case studies (2 examples for the draft document) - we need to lean into different partners.**
    - **Energy advocacy**
      - Lorri (Unite Oregon) - how to read a PGE bill and how their contributions can reduce their PGE bill. Showing the streamline of orgs like CEP creating programs to advocate for people most impacted by utility bills to doing individual casework.
    - **Temperature standards about Build/Shift**
- **Text for draft document by Wednesday end of the day**
