Optional Information

I believe that positive alignment between the Corbett Community and School District is necessary in order to provide the best educational outcomes for our students. I strongly support the process recommended in the Rob Saxton report to form a committee and a comprehensive plan to directly address the issues at stake and come up with solutions that will better meet the student's needs as well as the community's concerns.

(69)

I am especially willing to advocate for strong CTE program offerings, linked to East County tech, tourism, and construction businesses that provide real life career and technical education.

(20)

I am also willing to support significant changes in existing programming and leadership focus if that is what is needed to get our students the best opportunities for success. We must set high expectations and provide opportunities for all types of learning for all types of students.

(47)

Important facility issues, school budget realities, school size, and educational programming are top priorities in this work towards finding a common vision for our schools.

(25)

I have faith in the Corbett School and Community to be able to work through the very challenging philosophical and financial realities, and come up with feasible compromises that will allow us to continue to operate as an independent School District.

(41)

We feel very fortunate to live in Corbett; our four children graduated from Corbett schools and they benefited from being able to attend a relatively small sized school in their own town. I believe that Corbett is the kind of school that has the ability to develop new educational methods that better fit the realities of today's world.

58

As a School Board member, I would work to insure this for Corbett's current and future students.
