This is to document my family's **strong objection** to having cellular/wireless towers at 13937 and [14111 NW Springville Rd, Portland](#). The proposal ignores community health, health disclosures and does not align with the character of our bedroom community.

The tower can be located further east towards the Skyline mountains where other cellphone towers exist.

A cell phone tower emits RF waves and has negative impact on health and property value. There was no plan for the tower to be constructed when we bought this property and hence, we do not want it in our vicinity.

Regards,

Rajib Ray
