What Does the Building Data Management Center Do?

In the Facilities and Property Management (FPM) Building Data Management Center (BDMC) we are internal service providers who uphold the mission of Multnomah County by providing support to all County Departments and their Programs so they are able to provide vital services to the citizens of the county. This Includes:

- Managing over 4.5 million square feet in over 165 county-owned or county-leased buildings and property.
- Planning for the county's future space needs strategically and proactively.
- Coordinating the design and construction of vital new buildings that modernize the services we provide to the citizens of the county.
- Ensuring our buildings operate in a safe, accessible, healthy, energy-efficient, and cost-effective manner.
- Implementing future focused systems and procedures

The Building Data Management Center (BDMC) is responsible for most documentation needed for Facilities Operations and Maintenance. BDMC does this by keeping up to date Revit models for each facility.

Internship Description & Responsibilities:

- Create and maintain Building Information Models via Revit
- Audit CAD and Revit files to assure accuracy of real world conditions

- Interact with stakeholders to identify opportunities for collaboration.
- Maintain a database of Historical Construction Documents
- Curtail data flows to make work more efficient
- Help maintain data flows from project to operations.
- Gain experience in building lifecycle management
- Hone Revit skills that have become industry standard
- Learn the intricacies of work at a government level

Education and Minimum Qualifications:

- Minimum 2 full years of Architectural or Engineering Education
- Minimum 2 years experience using Autodesk Revit
- Minimum 1 year experience using Autocad
- Experience with Google Suite including Docs, Sheets, and Drive

Preferred Qualifications:

- AAS in Architectural Design and Drafting or Equivalent
- 2 years experience working with commercial building design or construction
- Experience in BIM data management
