

Coordinated Care Pathway Center

Monthly Data Snapshot

For the Reporting Period of March 1-31, 2025

The following includes two data sets: Cumulative data collected from **Sept. 1, 2024 to March. 31, 2025**, and data for the current reporting period of **March 1 to March 31, 2025**. Multnomah County is sharing the following schedule for future data releases. This schedule allows for a larger sample size and takes into account lags in completion data. The schedule will be as follows:

- **Monthly snapshot** with data on number of referrals by law enforcement partners into the deflection program, the number of people who were referred into the deflection program and engaged with the process¹, the number of referrals made from deflection to other services and more. This report includes a lag to analyze and verify data.
- **Quarterly update** with at least a 1.5-month lag to account for 30 days to complete deflection and up to 30 days for providers to report what services were accessed (outcome, transportation, demographics, etc.). The second quarterly update will be released in mid-May 2025 and will include Jan.– Apr. 2025 data.
- **Yearly report** that will include Q4 2024-Q3 2025 data and analysis and will be released in winter 2025.

We are also working to create a public dashboard, but the monthly reports can be found [at this website](#) for the time being.

Data is preliminary and subject to change as data is verified and checked for accuracy.

¹ A person is considered to have engaged with deflection if, after being brought to the Pathway Center by law enforcement, they completed the steps needed for them to receive a customized care plan with referrals to the services that can be accessed during a period of 30 days to successfully complete deflection. The steps include screenings, case management, and signing consent for the program to verify whether they completed deflection within 30 days of when they opted in to deflection.

Data Point	To Date (9/1/24- 3/31/25)	Reporting Period (3/1/25- 3/31/25)	Explanation
Total number of deflections initiated	283	16	
Referring Partners:			
Portland Police Bureau (PPB)	234*	16	*This number is being reconciled with PPB on a rolling basis and may be different than their numbers. **The DA's office referral was not sent to the Pathway Center, it was fielded by the Behavioral Health PATH team
Multnomah County Sheriff's Office	4	0	
Gresham Police Department	3	0	
Oregon State Police	9	0	
Multnomah County District Attorney's Office	46	0**	
Number of people who engaged in deflection	183*	14	*Includes field-based and Pathway Center
Number of referrals to services	425	21	Number of referrals per participant varies
Number and percent of participants who initiated deflection and accepted transportation from Pathway Center*	105 (out of 180)** 58%	14 (out of 16) 87%	*This data has been included at the request of the Good Neighbor Advisory Committee. Pathway Center staff encourage all participants to accept offers of transportation. This data is specific to individuals who have accepted transportation provided by the County. It does not include people who arrange transportation on their own. The quarterly data will include a broader analysis of forms of transportation taken. **Between 10/14/2024 - 3/31/2025
