

Coordinated Care Pathway Center Bi-weekly Data Snapshot

For period of Oct. 14, 2024 through Oct. 31, 2024

Following is data collected for the period of **Oct. 14** (the day the Coordinated Care Pathway Center opened) through **Oct. 31, 2024**. The report also includes the cumulative number of deflections initiated since the deflection program began on Sept. 1, 2024.

After observing and analyzing data from the past two months, Multnomah County is sharing the following schedule for future data releases. This schedule allows for a larger sample size and takes into account lags in completion data. Please note that the first quarterly report that will include deflection completion data will be released in mid-February, 2025 to ensure the sample size is large enough to reflect possible trends, issues or adjustments needed. The schedule will be as follows:

- **Bi-weekly snapshot** with data on number of referrals, number of deflections initiated, referring partners and more. This report includes a two-week lag to analyze and verify data.
- **Quarterly update** with at least a 1.5 month lag to account for 30 days to complete deflection and up to 30 days for providers to report what services were accessed (outcome, transportation, demographics, etc.) The first quarterly update will be released in mid February 2025 and will include September – December 2024 data.
- **Yearly report** that will include Q4 2024-Q3 2025 data and analysis and will be released in winter 2025.

We are also working to create a public dashboard, but the bi-weekly reports can be found [at this website](#) for the time being. We will begin releasing the following data bi-weekly at virtual media briefings. The next bi-weekly data release will include data from Nov. 1 to Nov. 15, 2024. The County will then release quarterly reports with additional data points, including demographics and transportation.

Data Point	Result	Explanation
Number of deflections initiated since Sept. 1, 2024	91	For the period of Sept.1-Oct. 31, 2024
Number of referrals to services since Sept. 1, 2024	192	For the period of Sept. 1-Oct.31, 2024
