The Earthquake Ready Burnside Bridge Project

The Online Open House is Closing Soon!

Portland's aging downtown bridges are not expected to withstand a major earthquake. That's why Multnomah County is taking the lead on making at least one crossing earthquake ready. To ensure the project can be funded and built, the County is seeking ways to reduce cost.

Visit the [online open house](#) to provide feedback and share your thoughts on the proposed cost saving refinements through Tuesday, December 14th. Complete the survey and provide your contact information to be entered to win one of three \$150 Visa gift cards. More than one thousand residents have taken the survey and visited the website to learn about the project. Your input has been helpful and will continue to be an important part in how this project moves forward. We encourage you to share this input opportunity with others so more can be involved.
