Formatted Statement

Climate justice is one of the most important issues of our time. The East Multnomah SWCD is positioned to increase their impact in this regard, as they are currently embarking on a strategic plan. My professional background and personal values align closely with climate justice.

During my 31 years of experience in natural resources, I have worked with 13 Oregon SWCDs, including nearly ten years working closely with East Multnomah SWCD partnering on many projects.

With a taxpayer base, the SWCD makes their impact with both staff programs and grants. I take the fiduciary responsibility of directing and spending taxpayer funds seriously and want to get the best benefit for the cost. The SWCD has done a great job of building equity into their programs and grant priorities and I look forward to continuing that legacy.

East Multnomah County has a dwindling farming base. I have managed many projects with farmers to improve irrigation efficiency and protect streamside areas. I want to help the SWCD continue their long-time efforts to preserve farm land and support farmers.
