This letter is regarding the above mentioned case. My property backs on to Mr. Reed's property. The disturbance in the stream areas has been immense. Every day trucks and back hoes are constantly working there. Soil is being taken out and moved from the location. There is a spring on my property, which has also been impacted. My neighbors pond has literally dried up. Mr. Reed, in our absence made a fence in the spring area and has encroached on to my property by at-least 10 or more feet.

We entered into a reforestation program in approximately 2017. Trees are growing very nicely and we are trying to protect the habitat. Mr. Reed has totally destroyed the area.

We had complained to the county and Mr. Robert Hyde had come out to see. Nothing was done to protect the habitat and environment. Now construction has started in this area.

We all pay taxes, but why are we not heard. Mr. Reed with money and connections is having his way and is allowed to do whatever he wants.
