Hello Ms. Estrin,

Just today I became aware of 2 new land use applications related to the PWB. One having to do with creation of a parking area for 400 vehicles and large "lay down" areas within a variety of special resource areas and another related to the placement of numerous construction trailers. I also became aware that the final day for the scant 2 week public comment period is tomorrow, October 17.

Let me begin by stating that you, above all others, are fully aware of the ongoing interest in this project in this rural community. You are fully aware that RFPD10, 1000 Friends, Oregon Farm Bureau, OAN, Multco Farm Bureau and the Cottrell CPO have and continue to participate in the land use process. Despite your knowledge of this ongoing interest and participation, you failed to provide public notice of these new land use applications to any individual or agency beyond 750 a foot distance. That may meet the letter of your code but it clearly violates public trust in you and your division.

I'm requesting that you make this right by allowing an extension of at least three weeks for real PUBLIC INVOLVEMENT. This time should include full access to the completed application materials submitted by the PWB that presumably includes full details of what is proposed and the justification.

Thank you for your timely response.

Charles Ciecko
