If Residential Use, Total Number of Units _____

Applicant's Name Matt Alexander
 Mailing Address 58640 McNulty Way City St. Helens
 State Oregon Zip Code 97051

-TO THE APPLICANT-

Approval of most land uses involving a new or expanded use or involving creation of a new parcel requires a determination that the water system is adequate.
 If you propose to use a public water system, deliver this form to the appropriate water district prior to making any land use application. After the water district fills in the following section and returns it to you, include this form with your application.
 If you will be using a private water system, complete the bottom section of this form.

-TO BE COMPLETED BY A DISTRICT OFFICIAL AND RETURNED TO THE APPLICANT-

The District will provide service from a 2" inch line located on East Woodard Rd.

The proposed use should be required to make the following water system improvements:

Name of District Corbett Name of Official Tom Edwards
 Date 6-7-21 Office held by Official District Manager

-TO BE COMPLETED BY THE APPLICANT IF A PRIVATE WATER SYSTEM WILL BE USED-

If you propose to use a private water system, a determination that the system is adequate must be made to satisfy Comprehensive Plan Policy 37. There are two different times that determination can be made:

- (1) In the initial review of your proposal if the on-site well or other form of private system is existing at the time of the land use application, OR
- (2) After the initial review but before issuance of a building permit when documentation is provided to the Planning Director that a water system is in place. At that time public notification will again be given which may result in a new public hearing.

Describe Water Source, Including Location _____

Describe Supply of Water Available (i.e., Gallons Per Minute) _____
