# Total Budget vs. Operating Budget

<i>BUDGET</i>	A written plan of financial operation for estimating expenditures for one year, and the proposed means of financing the estimated expenditures.	
	<b>TOTAL</b>	<b>OPERATING</b>
<i>WHAT?</i>	Resources needed by the County, plus internal charges, transfers, loans, and accounting entities	Excludes cash transfers, unappropriated balances, and contingency
<i>WHO?</i>	Oregon Department of Revenue - Required by Oregon Budget Law	County: Departments, Budget Analysts
<i>WHY does it matter?</i>	This sets the legal appropriations	Avoids some double counting and closer to what the County expects to spend in a year
<i>HOW does it relate to each other?</i>	<b>Total Budget = Operating Budget + Cash Transfers + Unappropriated Balances + Contingency</b>	

# Balancing the Budget

The budget must be **balanced** each year. When expenses outpace revenue, the Board of Commissioners must make **difficult choices about which programs to prioritize**.

## Revenue > Expenses

### Flexibility to Expand

When revenues are higher than expenses, the County has the flexibility to expand or add more programs.

## Revenue < Expenses

### Mandatory Reductions

The County is required by law to reduce expenses to balance the budget.
