Program Description

Booking is the process by which persons subject to arrest enter the criminal justice system. The MCSO Booking Facility serves all Law Enforcement agencies in the county; safely and efficiently admitting and releasing arrestees, and readying them for transfer to both MCSO facilities and outside agencies. The Booking Facility has 18 beds that are included in the jail system bed count. This offer includes the deputies and sergeants working in booking and release 24 hours a day, 7 days a week.

MCSO Deputies are trained in de-escalation and search techniques and work together to provide a safe and secure environment for arrestees coming into the facility. Arrestees come from all areas of the community and often are struggling with addiction or mental health issues. Deputies work with each arrestee upon entry to identify issues and provide arrangements to accommodate arrestee's individual needs throughout the booking process. Booking also collaborates with Corrections Health, which provides medical screening and care to those arrested. A registered nurse from Corrections Health sees each person to identify and isolate individuals who appear potentially contagious, seriously ill, injured or dangerous, thus protecting the health and safety of the person, the staff, and the community.

Release is the office through which every arrestee and Adult in Custody who is released from custody must pass to return to the community. The Release deputy works closely with transition services, medical/mental health, and Corrections Records to ensure necessary information and documents are provided to individuals being released. Release also ensures individual property is returned upon release.

The Booking and Release Program processes all releases, standard, and in-transit bookings at the Multnomah County Detention Center.

Equity Statement

The MCSO Booking Facility is dedicated to the safe, secure, and equitable processing of all individuals as they enter or exit the criminal justice system. Highly trained staff work collaboratively to provide necessary and individualized care.

Program Description

MCSO supports Corrections Health by increasing its Clinic Escort Deputy Staff by one at each facility creating a swing shift clinic at Multnomah County Inverness Jail (MCIJ) and the Multnomah County Detention Center (MCDC). This has significantly increased Adult In Custody access to mental health clinicians, physicians, nurse practitioners, and physician assistants. Moreover, the length of appointments and quality of care to Adults In Custody is enhanced with the extended hours of clinician availability.

Previously, clinics only operated during day shift, Monday through Friday. This schedule could not accommodate all Adults In Custody seeking medical or mental health appointments. Other aspects of jail operations which require the presence of an Escort Deputy such as court appearance movements, off-site for work crew projects, kitchen work crews, attorney visits, social services visits and other necessary tasks often limits staffing. These multiple demands on Escorts at times limited the ability to move Adults In Custody for regular medical/mental health appointments due to the lack of Escort Deputy availability. Further expected outcomes of additional clinic access include a shortening of jail stays, lessening of use of force events, increased therapeutic assessments, fewer injuries to Adults In Custody and staff, potential release from custody, and an increased placement of Adults In Custody in the appropriate venues such as the Oregon State Hospital, Unity Center, Hospital, etc.

The Clinic Escort Deputies Program:

- Provides expanded access to medical and mental health services for Adults In Custody

Equity Statement

MCSO, in collaboration with Correctional Health, ensures equitable access to medical and mental health services for Adults in Custody.

The East Control center provides ongoing direct and video surveillance of the east end of MCIJ, the kitchen work areas and facility perimeter. In addition, the deputy monitors and serves as the primary radio communications control center for the facility and associated emergency alarm response. The control center deputy also coordinates attendance for Adults In Custody who sign up for law library access for case related research. Additionally, they maintain supervision of those individuals who attend law library. This provides Adults In Custody the ability to have access on a regular basis to the law library located on the east end of the facility.

The Inverness Jail is primarily a medium security, direct supervision, dormitory style facility. The design and population of Inverness Jail offer the greatest prospects for programs, education and volunteer work opportunities for those in custody. Adults In Custody are afforded opportunities to exercise their faith while housed at MCIJ, to include offering religious diets and available faith related items and materials. Language interpreter services and ADA accommodations are available and provided to meet individual needs. MCSO strives to ensure everyone in our care is afforded the opportunity for medical, mental health and emotional support.

The program's mission is to ensure that Adults In Custody are treated with dignity and respect during a difficult time as they work through court processes, serve a sentence or a sanction. Staff work to provide opportunities for all Adults In Custody to have fair and equitable access to a variety of programs and services. Additionally, individuals are provided opportunities to actively engage in addressing their individual needs while in custody in a safe, encouraging and engaging environment.

Program Description

The Work Crew Unit provides an opportunity for Adults In Custody to learn valuable job skills and earn time off their sentence. In 2021, in collaboration with the MCSO counseling staff, the work crew program introduced the Pathways to Employment Program (PEP). PEP provides training, resources, work experience, and a plan for employment after release from custody. The MCSO Work Crew Unit provides Adults In Custody with real world work experience in a safe environment that focuses on building positive relationships and comprehensive training in a variety of job skills. Deputies work with Adults In Custody to develop two types of workplace skills. The first are general workplace skills to include time management, teamwork, professionalism, effective communication, attention to detail, and working safely. The second are job specific skills directly related to a job or field of work.

The Pathways to Employment Program (PEP) is a collaboration between MCSO's Corrections Counselors, Work Crew deputies and SE Works which provides a mechanism to schedule training and life skills classes, track work experience and training received from the work crew program, and assist Adults In Custody with a plan for employment after release from custody. The goal of the work crew program is to use training, relationships with outside partners, and real work experience to successfully transition Adults In Custody to gainful employment after release from custody.

The MCIJ Work Crews Program:

- Provides adults in custody real world work experiences in a safe environment
- Facilitates the Pathways to Employment Program to provide training, document work experience, and develop post-custody employment plans

Equity Statement

MCIJ Work Crew helps Adults in Custody prepare to re-enter the community by providing job training, mentoring, and employment planning. The Pathways to Employment program works to reduce barriers to employment and provide skills that will create more equitable opportunities after release.

Program Description

The Classification Unit is comprised of specially trained corrections deputies, whose primary function is to determine appropriate housing for Adults In Custody. Housing decisions begin during an in-person interview using an objective jail classification instrument at intake. Updated interviews and evaluations are done throughout the time an adult is in custody. This process assists in ensuring the safety of all Adults In Custody while supporting efficient management of MCSO's corrections facilities.

The Classification Unit develops housing configurations used to create safe separations for Adults In Custody who have different risks and need levels. Important factors when determining appropriate housing for Adults In Custody include: current charge, previous behavior, as well as risk and programmatic needs. The unit's primary goal is to operate an objective classification system that provides for separations between violent and non-violent offenders and facilitates movement through administrative processes, from the most restrictive housing to the least restrictive housing. The objective classification process is also designed to identify programmatic needs and provide adequate services and programs to assist Adults In Custody in building positive life-skills with the ultimate goal of successful re-entry into the community.

Finally, the Classification Unit is responsible for providing an in-house disciplinary process that is fair and balanced to maintain proper order in the corrections facilities, as well as to promote human values, individual dignity, and socially desirable changes in attitude and behavior.

The Classification Program:

- Determines the appropriate housing classification for Adults In Custody in Multnomah County jails
- Develops and implements housing configurations that maximize the safety of all in custody

Program Description

Close Street Supervision (CSS) is a pretrial supervision program that provides services to individuals arrested for felony and misdemeanor crimes who the court deems appropriate for release from custody under a deputy's supervision. CSS is focused on providing public safety through the effective management of those who would not be otherwise eligible for release. At the direction of the court, CSS provides intensive, individualized supervision and management of multiple need, pre-trial arrestees who would otherwise be ineligible for release from custody.

CSS deputies develop plans that help to ensure client accountability and safety in the community, including telephone check-ins, electronic monitoring, office visits, court reminders, and, depending on unit staffing, home visits. The CSS Deputies are also in direct contact with victims of crime to ensure their voice is a part of the supervision process. Since the COVID-19 pandemic, CSS caseloads have increased in an effort to reduce reliance on jail beds. In close coordination with the Local Public Safety Coordinating Council and its partners, CSS is working to reform the pre-trial supervision process. This work includes resources aimed at preserving the rights of pre-trial release for defendants and maintaining community safety. A focus on understanding how the pre-trial system impacts marginalized communities continues to be a priority in our pre-trial reform efforts.

The Close Street Supervision Program:

- Provides intensive supervision and management of individuals that have been arrested and are waiting on a legal ruling on their case, either by trial or settlement
- Assist clients in maintaining and reconnecting with employment, mental health services, housing, and many other forms of support

Equity Statement

MCSO Close Street Supervision provides an equitable, care-centered approach through pre-trial services and programming for a select group of defendants, including those from marginalized communities or with behavioral health needs, while also considering the voice and input of their victims.

Members of the Transport Unit utilize a comprehensive understanding of the jail system to ensure timely, accurate transport of Adults In Custody to and from Multnomah County facilities, state facilities, the Oregon State Hospital, and a host of other county facilities throughout the state.

To ensure a means of safe and accessible transportation for all adults in our custody, MCSO utilizes a fleet of vehicles specifically designed for the unique needs of those we serve. These vehicles include accessibility features and varied capacities to allow for flexibility and separation when moving a diverse population from one facility to another. These vehicles also limit the number of transports that need to be made, allowing MCSO to continue in its efforts to make both equity and fiscal responsibility its top priorities.

As a primary hub for the Northwest Shuttle Service, the Transport Unit is tasked with picking up Adults In Custody who are required to appear at Multnomah County courts and other facilities, as well as shuttling Adults In Custody between other jurisdictions in the northwest. Through this collaborative effort, MCSO is able to save tax dollars that would otherwise be spent on costly extraditions that require more staff hours and transport costs.

The Transport Unit is an invaluable asset to not only Multnomah County and its community, but to a variety of other agencies committed to the safe, efficient transport of Adults In Custody to ensure they are able to participate in the judicial process with limited delays, regardless of where they are located.

Program Description

The Multnomah County Sheriff's Office (MCSO) Civil Unit provides enforcement services for the civil and probate court systems. Through this program court orders to seize and sell property, satisfy landlord/tenant actions, and enforce child custody disputes are conducted in an objective, fair, and equitable manner in compliance with Oregon statutes and rules on civil procedure.

When domestic violence threatens the family, deputies in the Civil Unit serve domestic violence restraining orders to protect family members from violence and aggressive behavior. The Civil Unit collaborates with the MCSO Gun Dispossession/Restraining Order Unit, focusing on retrieving firearms from respondents in domestic violence restraining orders.

The MCSO Civil Unit also conducts extraditions. An extradition is the legal process by which one county formally requests and obtains the surrender of a person from another county so that the person can face criminal charges, stand trial, or serve a sentence for a crime committed within the requesting jurisdiction.

Finally, the MCSO Civil Unit also provides public safety support during evictions. The Sheriff receives the Writ of Possession signed by a judge from the court, and Civil deputies then coordinate an eviction process with the landlord. While performing these and other statutorily mandated duties, Civil Unit deputies experience many challenging situations. All members are trained in utilizing de-escalation techniques and conflict resolution skills to assist in resolving these challenging situations in a peaceful manner. Additionally, every community member served an eviction is provided a resource list with phone numbers and addresses to assist in resolving their situation.

Program Description

The Multnomah County Sheriff's Office (MCSO) Special Investigations Unit (SIU) provides for the investigations of crimes involving the sale, distribution and manufacturing of dangerous drugs. The MCSO SIU is tasked with enforcing state narcotics laws, prostitution activities and assisting with advanced surveillance of major criminal cases. This program is also a resource for investigating and apprehending suspects involved in human trafficking of children.

The purpose of the Special Investigations Unit is to investigate illegal drug activities in the Metro area and other criminal activity as directed by the Sheriff. This unit conducts criminal investigations of street level illicit drug activity, up to and including the prosecution of federal narcotics crimes. Investigations often lead to drug trafficking organizations that transport and eventually sell dangerous drugs for a profit. By dismantling drug trafficking organizations from introducing illicit drugs into the marketplace, the vision for a safe and thriving community for everyone is achievable. This program is partially funded through grants, revenues received from forfeitures, and federal case funding.

SIU has the responsibility to proactively identify, investigate, prepare required investigative reports, apprehend the suspect(s), prepare the case for successful prosecution, and testify in court in all cases dealing with illegal drugs and vice activities. SIU recovers weapons which include handguns, rifles, and machine guns during their criminal investigations.

This Special Investigations Unit:

- Investigates criminal activity involving the sale, distribution, or manufacturing of illegal drugs
- Impedes criminal operations of narcotics distributors and traffickers

Equity Statement

This program supports vulnerable populations that have been impacted by drug and human trafficking crimes by collaborating with social service providers, and by accessing and encouraging treatment when possible.

The Reynolds District School Resource Deputies (SRD) are the liaison between schools, law enforcement, and social services. SRDs work toward offering resources to reduce risk to children and their families and to enhance educational opportunities by addressing the various barriers children and families may encounter. Program Description

Multnomah County Sheriff's Office (MCSO) Gun Dispossession/VRO (Violation of Restraining Order) Detail program provides for countywide investigation of restraining order violations, specifically when the respondents do not comply by dispossessing themselves of their firearms. Since 2015 MCSO has collaborated with the Portland Police Bureau, Multnomah County District Attorney's Office, and the Multnomah County Circuit Court in enforcing the gun dispossession clause of restraining orders. In 2011, a model surrender protocol was developed in a statewide domestic violence firearms task force, and this process is currently being utilized in Multnomah County. In January 2020, this protocol was extended to the other protection orders through an Oregon House of Representatives Bill, which include Stalking Orders, Sex Abuse Protection Orders, Disabled and Elder Abuse Protection Orders, and Family Abuse Protection Orders.

This unit helps educate and/or force respondents to comply with the court order to surrender their firearms. This reduces the number of illicit firearms in the community and assists in reducing domestic violence lethality by removing firearms from the respondent's possession. Data shows that access to firearms can increase the risk of death to the petitioner by five times and up to twenty times if the respondent had made prior threats or assaults with firearms. Statistics demonstrate that an abuser's access to firearms increases the risk of homicide of a female partner by 400%, and the mere presence of a gun increases fivefold the chance that domestic violence results in homicide.

The Gun Dispossession VRO Detail:

- Seizes firearms held by subjects of restraining orders and protection orders
- Investigates restraining order violations for follow-up

Equity Statement

The Gun Dispossession Program prioritizes victim safety and focuses on protecting those most at risk of harm, including women and vulnerable populations, and promotes equitable access to justice.

Program Characteristics:

Program Description

The citizens of Oregon have designated certain activities be regulated in support of a safe and livable community. One of these activities is MCSO's Alarm Program which administers and manages the reporting of legitimate and false alarms. False alarms are subject to penalties in an effort of reduce the number and unnecessary responses by law enforcement. The Program presently manages approximately 8,000 alarm customers, issuing burglary and robbery alarm permits for both residential and business customers located in unincorporated Multnomah County as well as in five cities located in East Multnomah County.

Effective alarm use management increases the probability that the alarm calls that law enforcement responds to will be valid alarm calls. Additionally, reducing false alarm calls conserves scarce public safety resources by reducing the time that law enforcement officers respond to false alarms. The program includes penalties for the reporting of false alarms, which motivates alarm customers to properly maintain their equipment and exercise sound alarm-use practices. False alarm response is an inefficient use of law enforcement time and resources and presents potential safety concerns for innocent citizens and law enforcement, as a result of an armed response.

This unit continues to provide alarm education outreach to the general public to focus particularly on those who install their own alarms to ensure they know the laws, are compliant, and have information on maintaining alarms for optimum safety. Making this information accessible to everyone is a priority for the Sheriff's office.

The Alarm Program:

- Issues new and renews existing alarm permits for both residential and business customers
- Responds to false alarms and administers applicable penalties

Equity Statement

The Alarm Program equitably serves residents and businesses across diverse communities by ensuring fair access to permits and education on alarm use.
