Multnomah County Health Department

Multnomah County Immunization Resources

Updated August 2026.

Need Help?
Call 2-1-1

The Multnomah County Health Department has created this list of immunization resources in our community. This list is meant to be a helpful resource. It is not intended to endorse some clinics and not others. We hope this list will help families stay healthy and get the vaccines they need to stay in school. Please call or check the website of a clinic before you go, in case hours or vaccine availability has changed. This list does not include every health care service or provider in Multnomah County. If you are an immunization provider and would like to be added to this list, please email us at immiprogram@multco.us.

Multnomah County Health Department

Provider	Ages Served	Notes	Website	Contact

Your Doctor or Clinic

The best place to get vaccines is with your doctor's office or clinic. If you do not have a doctor or clinic, you can become a patient with Multnomah County's Community Health Centers or any of the federally-qualified health centers (FQHCs) listed here. If you have health insurance, you can also contact your insurance provider for help finding an in-network doctor's office or clinic. For more community health clinics, visit coalitionclinics.org/your-health/find-a-clinic.

Local Pharmacies

Local pharmacies and grocery stores usually have vaccines for ages 7 and up. The Vaccine Finder website (vaccines.gov) can help you search for pharmacies near you. For more information and to confirm vaccine availability, please contact the pharmacy. Prices may vary, and locations may not take all insurance.
