Re: Investment Portfolio Results for November 2023

The County Investment Pool's annualized earnings rate for November was 3.79%. This was an eighty-five basis point increase from the previous month's return of 2.94%. The year-to-date rate of return for Fiscal Year 2024 is 3.15%.

The U.S. Treasury 90-day T-Bill yield at the end of November was 5.45%. A fourteen basis point decrease from the end of October.

The current yield for the State's Local Government Investment Pool is 5.00%.

Total nonfarm payroll employment increased by 199k jobs in November, slightly better than the 190k estimate. The job market continues to be resilient. Futures markets point to the Fed halting interest rate hikes and possibly cutting rates in 2024.

Total Aggregate Portfolio

Month End Commentary - November 2023

Yields declined substantially in November with the 2-year yield dropping 41 basis points while the 10-year yield declined by 61 basis points. Driving the move was continued positive news on inflation and labor markets which shifted the markets' view on the Federal Reserve as we now have more rate cuts priced into the upcoming calendar year. Risk assets were supported by a decline in yields with stocks, as measured by the S&P 500, jumping higher by almost 9%.

November was a constructive month for markets as inflation continued to decline faster than expected while growth and labor markets continued to remain resilient. This all put momentum behind the "soft landing" or "no landing" scenario that allows the Fed to back off their restrictive stance without undue harm to the economy. As of this writing, the markets are pricing in five 25 basis point rate cuts in 2024 and sees the Fed ultimately shifting rates back toward 3% in 2025. We await fresh forecasts from the FOMC that are set to be delivered on December 13th that will give us an updated view on how the policy setting committee seeks to tackle the year ahead and glide us back toward more neutral footing. The good news for investors is the decline in market yields has been less severe than the decline in forward Fed expectations which, in our view, still leaves considerable value in fixed income securities for long-term investors.

Before we head off to the holiday break, markets will digest November's CPI report as well as retail sales that will help shape the narrative for the start of 2024. For now, it looks like we have plenty of reasons to be optimistic for the year ahead and therefore we don't forecast any coal in stockings this season.

Despite the rally in bonds, we continue our call to be long duration compared to strategic targets as we see ample reason for the Fed to start reversing policy next year, doubly so if we enter a downturn in the economy. We continue to remain neutral in corporate credit and see good value in the agency market where spreads are attractive, and supply is ample.

This report is for general informational purposes only and is not intended to provide specific advice or recommendations. Government Portfolio Advisors (GPA) is an investment advisor registered with the Securities and Exchange Commission and is required to maintain a written disclosure statement of our background and business experience.

Questions About an Account: GPA's monthly & quarterly reports are intended to detail the investment advisory activity managed by GPA. The custodial bank maintains the control of assets and settles all investment transactions. The custodial statement is the official record of security and cash holdings and transactions. GPA recognizes that clients may use these reports to facilitate record keeping and that the custodial bank statement and the GPA report should be reconciled, and differences documented.

Trade Date versus Settlement Date: Many custodial banks use settlement date basis and post coupons or maturities on the following business days when they occur on weekend. These items may result in the need to reconcile due to a timing difference. GPA reports are on a trade date basis in accordance with GIPS performance standards. GPA can provide all account settings to support the reason for any variance.

Bank Deposits and Pooled Investment Funds Held in Liquidity Accounts Away from the Custodial Bank are Referred to as Line Item Securities: GPA relies on the information provided by clients when reporting pool balances, bank balances and other assets that are not held at the client's custodial bank. GPA does not guarantee the accuracy of information received from third parties. Balances cannot be adjusted once submitted however corrective transactions can be entered as adjustments in the following months activity. Assets held outside the custodial bank that are reported to GPA are included in GPA's oversight compliance reporting and strategic plan.

Account Control: GPA does not have the authority to withdraw or deposit funds from or to any client's custodial account. Clients retain responsibility for the deposit and withdrawal of funds to the custodial account. Our clients retain responsibility for their internal accounting policies, implementing and enforcing internal controls and generating ledger entries or otherwise recording transactions.

Custodial Bank Interface: Our contract provides for the ability for GPA to interface into our client's custodial bank to reconcile transactions, maturities and coupon payments. The GPA client portal will be available to all clients to access this information directly at any time.

Market Price: Generally, GPA has set all securities market pricing to match custodial bank pricing. There may be certain securities that will require pricing override due to inaccurate custodial bank pricing that will otherwise distort portfolio performance returns. GPA may utilize Refinitiv pricing source for commercial paper, discount notes and supranational bonds when custodial bank pricing does not reflect current market levels. The pricing variances are obvious when market yields are distorted from the current market levels.

Performance Calculation: Historical returns are presented as time-weighted total return values and are presented gross and net of fees.

Amortized Cost: The original cost on the principal of the security is adjusted for the amount of the periodic reduction of any discount or premium from the purchase date until the date of the report. Discounts or premiums are amortized on a straight-line basis on all securities. This can be changed at the client's request.

Callable Securities: Securities subject to redemption in whole or in part prior to the stated final maturity at the discretion of the security's issuer are referred to as "callable". Certain call dates may not show up on the report if the call date has passed or if the security is continuously callable until maturity date. Bonds purchased at a premium will be amortized to the next call date while all other callable securities will be amortized to maturity. If the bond is amortized to the call date, amortization will be reflected to that date and once the call date passes, the bond will be fully amortized.

Duration: The duration is the effective duration. Duration on callable securities is based on the probability of the security being called given market rates and security characteristics.

Benchmark Duration: The benchmark duration is based on the duration of the stated benchmark that is assigned to each account.

Rating: Information provided for ratings is based upon a good faith inquiry of selected sources, but its accuracy and completeness cannot be guaranteed.

Coupon Payments and Maturities on Weekends: On occasion, coupon payments and maturities occur on a weekend or holiday. GPA's report settings are on the accrual basis so the coupon postings and maturities will be accounted for in the period earned. The bank may be set at a cash basis, which may result in a reconciliation variance.

Cash and Cash Equivalents: GPA has defined cash and cash equivalents to be cash, bank deposits, LGIP pools and repurchase agreements. This may vary from your custodial bank which typically defines cash and equivalents as all securities that mature under 90 days. Check with your custodial bank to understand their methodology.

Account Settings: GPA has the portfolio settings at the lot level, if a security is sold our setting will remove the lowest cost security first. First-in-first-out (FIFO) settings are available at the client's request.

Historical Numbers: Data was transferred from GPA's legacy system, however, variances may exist from the data received due to a change of settings on Clearwater. GPA is utilizing this information for historical return data with the understanding the accrual settings and pricing sources may differ slightly.

Financial Situation: In order to better serve you, GPA should be promptly notified of any material change in your investment objective or financial situation.

No Guarantee: The securities in the portfolio are not guaranteed or otherwise protected by GPA, the FDIC (except for non-negotiable certificates of deposit) or any government agency. Investment in securities involves risks, including the possible loss of the amount invested.
