Total Aggregate Portfolio

### Month End Commentary - October 2023

Longer-term yields inched higher in October while shorter-dated rates were largely unchanged as the Federal Reserve remained on hold while incoming data continued to show a solid underlying economy. Risk assets stabilized after a difficult September with the S&P 500 advancing by 1.34% while credit and agency spreads ended the month modestly higher.

The domestic economy continues to chug along at a solid pace with a resilient consumer offsetting weakness in housing and manufacturing. Third quarter GDP came in at 4.9% led by a sizeable rebound in consumption, which advanced at a steamy 4% annualized rate, while private fixed investment came in below trend at a 0.8% pace showing signs of tight monetary policy. Stripping out the noise around trade and inventory changes, final sales to domestic purchasers advanced 3.3%, which is well above the 2%-2.5% that is widely believed to be our sustainable trend rate. While the economy remains robust, price pressures continue to abate with year-over-year CPI at 3.7%, well below the 9.1% high seen a year ago, while measures excluding housing show inflation back near the upper end of the Fed's target range of 2%. We continue to expect inflation to moderate in the coming months, especially as lagged housing data enters the series.

The Federal Reserve stayed on pause again at the end of their November 1st meeting. Market pricing places low odds they will move again with a 15% chance of one last hike in the cycle before we start talking about rate cuts. We think they are done. Supporting this view was a cooler read on labor markets with a more tepid jobs report for October showing an economy that added 150 thousand jobs and downward revisions to prior months. Wage growth also showed signs of moderating with both average hourly earnings and the employment cost index showing annual wage gains of around 4%.

We grow in conviction on our desire to be long duration compared to strategic targets as we see the Fed as done with their cycle and believe their current stance to be too tight for the economy to handle going forward. We remain neutral in corporate credit and see good value in the agency market where spreads are attractive.

### Treasury Curve Total Returns Last 12 Months

Treasuries	Total Return
3 month bill	4.77%
1 year note	4.07%
2 year note	2.03%
3 year note	2.09%
5 year note	0.47%

### Treasury Benchmark Total Returns In Month

Benchmark	Period Return	YTM	Duration (Years)
ICE BAML 90 Day Bill	0.45%	5.45%	0.22

This report is for general informational purposes only and is not intended to provide specific advice or recommendations. Government Portfolio Advisors (GPA) is an investment advisor registered with the Securities and Exchange Commission and is required to maintain a written disclosure statement of our background and business experience.

**Questions About an Account:** GPA's monthly & quarterly reports are intended to detail the investment advisory activity managed by GPA. The custodial bank maintains the control of assets and settles all investment transactions. The custodial statement is the official record of security and cash holdings and transactions. GPA recognizes that clients may use these reports to facilitate record keeping and that the custodial bank statement and the GPA report should be reconciled, and differences documented.

**Trade Date versus Settlement Date:** Many custodial banks use settlement date basis and post coupons or maturities on the following business days when they occur on weekend. These items may result in the need to reconcile due to a timing difference. GPA reports are on a trade date basis in accordance with GIPS performance standards. GPA can provide all account settings to support the reason for any variance.

**Bank Deposits and Pooled Investment Funds Held in Liquidity Accounts Away from the Custodial Bank are Referred to as Line Item Securities:** GPA relies on the information provided by clients when reporting pool balances, bank balances and other assets that are not held at the client's custodial bank. GPA does not guarantee the accuracy of information received from third parties. Balances cannot be adjusted once submitted however corrective transactions can be entered as adjustments in the following months activity. Assets held outside the custodial bank that are reported to GPA are included in GPA's oversight compliance reporting and strategic plan.

**Account Control:** GPA does not have the authority to withdraw or deposit funds from or to any client's custodial account. Clients retain responsibility for the deposit and withdrawal of funds to the custodial account. Our clients retain responsibility for their internal accounting policies, implementing and enforcing internal controls and generating ledger entries or otherwise recording transactions.

**Custodial Bank Interface:** Our contract provides for the ability for GPA to interface into our client's custodial bank to reconcile transactions, maturities and coupon payments. The GPA client portal will be available to all clients to access this information directly at any time.

**Market Price:** Generally, GPA has set all securities market pricing to match custodial bank pricing. There may be certain securities that will require pricing override due to inaccurate custodial bank pricing that will otherwise distort portfolio performance returns. GPA may utilize Refinitiv pricing source for commercial paper, discount notes and supranational bonds when custodial bank pricing does not reflect current market levels. The pricing variances are obvious when market yields are distorted from the current market levels.

**Performance Calculation:** Historical returns are presented as time-weighted total return values and are presented gross and net of fees.

**Amortized Cost:** The original cost on the principal of the security is adjusted for the amount of the periodic reduction of any discount or premium from the purchase date until the date of the report. Discounts or premiums are amortized on a straight-line basis on all securities. This can be changed at the client's request.

**Callable Securities:** Securities subject to redemption in whole or in part prior to the stated final maturity at the discretion of the security's issuer are referred to as "callable". Certain call dates may not show up on the report if the call date has passed or if the security is continuously callable until maturity date. Bonds purchased at a premium will be amortized to the next call date while all other callable securities will be amortized to maturity. If the bond is amortized to the call date, amortization will be reflected to that date and once the call date passes, the bond will be fully amortized.

**Duration:** The duration is the effective duration. Duration on callable securities is based on the probability of the security being called given market rates and security characteristics.

**Benchmark Duration:** The benchmark duration is based on the duration of the stated benchmark that is assigned to each account.

**Rating:** Information provided for ratings is based upon a good faith inquiry of selected sources, but its accuracy and completeness cannot be guaranteed.

**Coupon Payments and Maturities on Weekends:** On occasion, coupon payments and maturities occur on a weekend or holiday. GPA's report settings are on the accrual basis so the coupon postings and maturities will be accounted for in the period earned. The bank may be set at a cash basis, which may result in a reconciliation variance.

**Cash and Cash Equivalents:** GPA has defined cash and cash equivalents to be cash, bank deposits, LGIP pools and repurchase agreements. This may vary from your custodial bank which typically defines cash and equivalents as all securities that mature under 90 days. Check with your custodial bank to understand their methodology.

**Account Settings:** GPA has the portfolio settings at the lot level, if a security is sold our setting will remove the lowest cost security first. First-in-first-out (FIFO) settings are available at the client's request.

**Historical Numbers:** Data was transferred from GPA's legacy system, however, variances may exist from the data received due to a change of settings on Clearwater. GPA is utilizing this information for historical return data with the understanding the accrual settings and pricing sources may differ slightly.

**Financial Situation:** In order to better serve you, GPA should be promptly notified of any material change in your investment objective or financial situation.

**No Guarantee:** The securities in the portfolio are not guaranteed or otherwise protected by GPA, the FDIC (except for non-negotiable certificates of deposit) or any government agency. Investment in securities involves risks, including the possible loss of the amount invested.
