<sup>1</sup> This data sheet is provided mainly to meet the reporting requirements as specified in one of the FY 2008 Budget Notes.

<sup>2</sup> This represents 96.1% of total County operational jail bed capacity (N=1633). Capacity at 97% or higher is considered a Population Emergency. In-transit bookings were excluded from the total bed use calculation.

<sup>3</sup> This number does not include 22 non-exclusive USM beds that were reported in other categories.

<sup>4</sup> The number of billed USM beds is a result of negotiation and data reconciliation between the County and US Marshal's office. It may not be the same number as pulled out from the DSS-J system.

<sup>5</sup> FBWR caseload includes new admissions, new terminations, or cases admitted previously but still active by the end of month.

<sup>6</sup> DSSJ and OJIN data were used to calculate CANS FTA outcomes. Persons in custody at time of hearing were excluded.

<sup>7</sup> Beds used for SB1145 (based on primary offenses) and BM11 (based on primary offenses) were counted first regardless other types of holding an inmate might have.
