I have a bold, progressive vision which infuses practical measures using Metro resources, transforming how we manage garbage, transportation and housing - all extremely important facets to the daily lives of every Metro citizen.

From my grassroots experience to my professional expertise, I have the sensibility to create a more livable community that is inclusive to everyone and mindful of environmental sustainability.

### **Let's talk trash!**

Why run for Metro Council? I want to transform the way we manage our garbage. Metro is the government entity that manages this regionally. Instead of adding more waste to landfills, I want Metro to use a waste-to-energy system to convert nearly all of our excess carbon based trash (including plastics) into fuel using a carbon neutral (potentially carbon negative) process. This fundamentally improves waste disposal, and creates both cost savings and additional revenue.

### **Progressive values**

Integrity is key! I walk my talk. I'm excited to be a driving force on Metro Council to improve people's lives through more affordable housing practices, lowering carbon infrastructure, and enriching Metro workplaces.

### **Policy priorities**

- Modernize our solid waste management infrastructure
- Create programs to divert useful items from the solid waste stream
- Explore innovative ways to address our houseless and housing affordability crisis
- Prioritize carbon neutral transportation infrastructure
- Consistently balance solutions through a social justice and equity lens
- Promote anti-displacement when upgrading current infrastructure
- Facilitate Metro employee satisfaction
- Refuse money from fossil fuel interests or corporate PACs!
