Gather Together

My name is...

My favorite local bridge is ...

One thing I've learned as a
member of this Steering
Committee is ...

1. One minute individual reflection (take notes)
2. Six minutes in breakouts, two minutes per person
3. Briefly introduce yourself and share reflections
4. Everyone keep an eye on time; we will send reminders

Work to Come

This project is a pathway toward a North Star

This project promises transformation, rather than tinkering on fiscal year at a time. It should enhance the work already underway.

This is a large-scale visioning process for the adult public safety systems.

A vision provides value-based, directional guidance for broad and various stakeholders to apply to legislative, policy, or budget changes to transform expensive, poor outcomes.

The output of this project may require significant shifts in many parts of the public safety systems. But you and your community will inform these shifts.

This project overall is also an opportunity to better coordinate the work that is already underway by connecting with fellow Steering Committee members and ensuring good collaboration along the way.

What this project is not

This is not a replacement for other initiatives, projects or programs underway such as:

- Oregon Judicial Department's behavioral health summit
- MacArthur-funded pretrial reform project
- HealthShare Oregon's medicaid waiver for housing support
- BHECN (Behavioral Health Emergency Coordination Network)

This project is not designed to address immediate crises.

The goal of this project is to one day change the paradigm to a holistic, therapeutic, and restorative system that does not require repeated short-term fixes.

Interim Discovery Report

Purpose of Discovery Report

This discovery report is a collection and synthesis of voices from the community. It will be used to inform the vision.

It is meant to shape the vision. It illustrates the breadth of perspectives and depth of community engagement that got us here.

This report is not the vision, strategy, nor implementation plan. It is not designed to provide answers or instructions as to what to do next.

The Interim Discovery Report is not the final synthesis of the research. It is based on the research conducted up until Dec 17th, 2021 only. The final report is coming mid/late February.

Your role

As it is not final, we are eager to get your input on how the research is being synthesized and summarized.

Before the report is final, we have the opportunity to differently prioritize, frame, or organize the research.

In reviewing the report, consider:

- What, if anything here, causes me concern or surprise?
If so, why?
- What's missing? What was I expecting to see but do not?
- What excites me?
