**PRIOR GOVERNMENTAL EXPERIENCE:** Board member, Multnomah Education Service District Elected.

**He's short on talk and long on action.**

**RETURN JIM DAVIS TO THE BOARD.**

**JIM DAVIS GETS THINGS DONE.**

**IN HIS FIRST TERM:**

1. Davis initiated Oregon House Bill 2572, saw it become law, and it has saved thousands of dollars for taxpayers.

3. Davis refused to take expense money when serving on the board. Unlike the incumbent who has taken thousands of dollars, Davis paid his own way.

**JIM DAVIS IS FOR:**

1. Education that exercises minds and bodies not just massages egos.
2. Budgets that meet the real needs of our students and their teachers not administration empire building.
3. Honest community participation in schools so as to meet that community's educational expectations.

1. The Oregon Educational Reform Act: Davis says, "the ideal of educational reform should be to produce a sound mind in a sound body. This Act does neither. On its face, it's politics, it's money, but it's not reform. The Act could cost over a billion dollars yet, be the greatest 'dumbing down' of our schools since 'whole word reading' and 'new math'."

#### **ARLENE COLLINS: The Background To Make MESD Work!**

The Multnomah Education Service District is the silent government. People know its programs—Outdoor Schools, Talented and Gifted, the Helensview High School for Teen Moms, helping children with disabilities—but don't know the MESD. Without MESD, your school district wouldn't have a cost effective way to pool resources with the other county school districts to serve children and taxpayers better. **ARLENE COLLINS** wants to ensure that these programs continue to work for the children.

As the former chair of the State Commission on Childcare, **ARLENE COLLINS** knows the programs of the MESD, and know how to make them work better. **ARLENE COLLINS** found the financial resources to fund teen parenting programs and child care programs around the state. She'll bring knowledge, experience, and a dedication to children's issues that MESD needs.

#### **ARLENE COLLINS: Responsible Oversight**

Being supportive of children also means knowing that we can always do better. **ARLENE COLLINS** will work to ensure that your tax dollars continue to provide the best services possible. The MESD cannot be effective if it is not accountable. **ARLENE COLLINS** has the experience in safeguarding your tax dollars and will make sure your voice is heard.

#### **ARLENE COLLINS: Supporting the Children**

Local stewardship is the key to improving education, and the MESD is your tool for helping local districts work more effectively. The children need the programs MESD provides, and we need **ARLENE COLLINS** as our voice on the MESD Board.

The social, political and educational climate that the College now finds itself in is different from what it was ten years ago, and different from what it was one year ago. Threats to the survival and health of any school are geared to sudden changes in its environment. However, challenges to a school's health are overlooked when we consider the slow, gradual changes that erode our understanding and our point of view. That is why we must be proactive in planning for the future, rather than simply responding to challenges only after our health and livelihood has been threatened.

A look at the recent history of secondary education, clearly shows that we can no longer operate on the premise of "business as usual." Not only have the educational needs of adults continued to grow and change, but the funding sources for these growing needs are much less clearly defined. It's easy to look at these changes as problems and easier yet to focus only on the short-term needs of the College, however a lasting response requires more creativity.

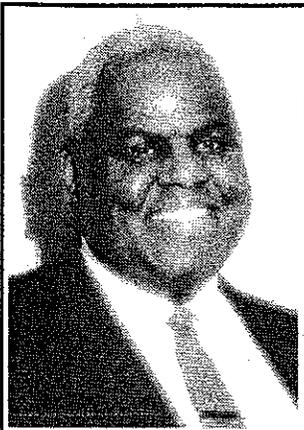

The College has taken strides in creating public/private partnerships. This allows the School, business community and local residents to collectively embrace the vision for our area's future. Yet, we cannot let this momentum slow. We must create our own future through an innovative marriage of mission, educational insight, funding partnerships and technology.

Creative solutions to the challenges facing the School today will lead to a stronger Mount Hood Community College tomorrow.

#### THE PCC BOARD: SKELTON'S ROLE

7 elected persons serving without pay for terms of 4 years. Meeting at least twice a month, chair and vice chair meet oftener. Skelton spends about 30 hours and up each month on Board business. Board establishes policy, hires the president and top administrators, approves budgets, approves building construction and repair, generally supervises the operations of the college.

**A VERY TOUGH JOB; OUR college is in serious financial trouble because of measure 5. MORE THAN EVER, YOU need persons who are experienced in educational management, finance and budgeting; SKELTON IS THAT PERSON!**

#### IS SKELTON'S EXPERIENCE IMPORTANT?

**YOU BET!** The job is too big for an inexperienced person to take over, in the midst of a huge building program, dealing with contractors, architects, government officials, facing serious downsizing of our budget and employees. **VOTERS: DON'T TURN THIS BIG JOB OVER TO A PERSON INEXPERIENCED IN PCC MATTERS! YOU NEED SKELTON'S HELP AND EXPERIENCE!**

## Dear Neighbor:

I am running for the Portland Public School District's Director, Zone 1 because I believe in public education. Public education is under attack and must be protected. Public education is important to the quality of life and our economic well being. Our children are important for today and the future.

Public education is more than the three Rs. Our schools must be improved and preserved. I believe that our children must have a well rounded education to advance into the next century. A strong school board is essential to a sound public education system to equip our children with the tools to grow and become good citizens and future leaders.

I bring the skills, knowledge and ability necessary to make wise decisions about the future of our schools. I will advocate for well rounded education. I will see that our tax dollars are wisely used to promote and preserve the quality teachers and administrators to provide our children the education they deserve. The State's budget problems should not be solved at the expense of public education.

I ask for your vote on March 28.

**Susan Hagmeier—An Experienced Advocate  
for Children and Parents**

As a concerned parent, Susan Hagmeier has been working both for adequate funding for our public schools and for an effective voice for parents in the decisions that affect our children. Susan stands for:

- **A variety of options for parents and students**  
No single approach to education can meet the needs of all children. We don't need a special program for every child, but we need enough alternative programs so there is a "fit" for every child.
- **A "customer service ethic" in our schools**  
Each school and each teacher must have the flexibility, authority and responsibility to adjust their programs as needed to deliver results: education that benefits every child.
- **Every child's right to a safe and supportive learning environment**  
Portland's diversity is our strength and our future. Our biggest challenge is to make education fully accessible to all.

*"A generation of responsible, successful citizens can only be built child by child, by parents and teachers who are willing and able to work together on behalf of the individual child."*

Susan Hagmeier

**Susan Hagmeier—A Respected Voice for Portland Schools**

*"I know Susan as a knowledgeable, tireless, common-sense voice for Portland's children and parents. I am delighted she is willing to serve."*

*"I look forward to working with Susan for better schools in our city. She does her homework, and is not one to settle for simple answers to complex problems."*

HENRY  
(HANK) P.  
HARRIS

**OCCUPATION:** Teacher: English, U.S. History, Human Relations Skills, Community-Based Service Learning Evergreen Alternative High School, Vancouver, Washington.

**OCCUPATIONAL BACKGROUND:** Formerly taught at the American Language Institute, Lisbon, Portugal (1990-92) and Huron High School, Ann Arbor, Michigan (1992-93).

**EDUCATIONAL BACKGROUND:** M.A. in Education, University of Michigan, 1993; B.A. in English, Harvard University, 1990.

**PRIOR GOVERNMENTAL EXPERIENCE:** Precinct Committeeperson.

Our job is formidable. It is to continue to create and sustain an exceptional system of schools in the face of strong economic and political pressures.

As a public school teacher, I am in daily contact with students, parents, teachers, classified staff, and administrators. I know what's going on in schools.

As an educator in an alternative secondary school, I bring certain experiences and perspectives that are not always represented on the current school board.

As a relatively young member of our community, I hope to bring a high level of energy and enthusiasm to the group of concerned citizens who direct the educational policy of our schools.

I know we can do it. However, it will require long hours, strong leadership, creativity, and innovative policymaking. My focus includes:

- **Rebuilding Morale.** Portland teachers are expected to do much more with fewer resources and increasingly adverse conditions. This is a ludicrous expectation. If we are unwilling to change the expectations, then we must improve those conditions.
- **Directing real change in our school structures.** There are cost-effective ways to create better learning environments in our schools. But change requires vision, leadership, and the courage to move forward.
- **Demanding safe and humane learning environments.** Students who are committed to their learning deserve to be educated in buildings free of fear, intimidation, filth, and disrespect. Students who violate rules of basic decency and humanity must forfeit their access to these sites, and need to be educated elsewhere.

I am not ready to give up on Portland Public Schools. Please join me and lend me your support in the March elections.

**OCCUPATION:** Portland Public School substitute teacher.

**OCCUPATIONAL BACKGROUND:** Classroom teacher; private tutor; sales representative for mutual funds and insurance; district manager in charge of sales and distribution of books and magazines for large East Coast publishers; office manager and surgical assistant for a plastic surgeon.

**EDUCATIONAL BACKGROUND:** Western Oregon College, Master of Science in Deaf Education; Western Washington University, Bachelor of Arts in Education; University of Washington, Freshman year; Portland State, additional classes over many years.

**PRIOR GOVERNMENTAL EXPERIENCE:** None.

I have been actively involved in education for forty-eight years as a classroom teacher and as a private tutor. I am interested in public education and want to be part of affecting changes in the Portland School District in the years to come. Past experience shows that I work well with people and boards. I want to be involved in positive problem solving of the many challenges facing education today. Having travelled and lived in many foreign countries, I am aware of the educational systems in those countries and would be more than willing to share my expertise.

In addition to education, I also bring experience in business in the following areas: manager of a ninety unit condominium; sales representative for mutual funds and insurance; district manager in charge of sales and distribution of books and magazines for large East Coast publishers; and office manager and surgical assistant for a plastic surgeon.

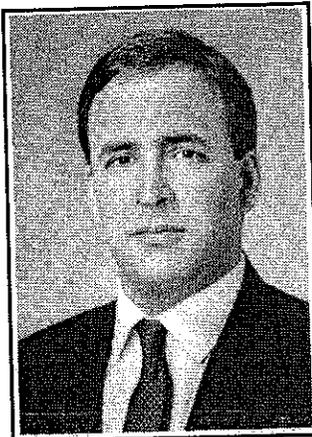

I have no aspirations for higher political office. I want to be involved and of service on the Portland Public School Board where educators need more representation. I am not soliciting, nor am I spending any money on my campaign. I am hoping that personal attention will win the day!

My own three children attended North East Portland Public Schools and now my grandchildren are doing the same.
