NOTHING IS MORE IMPORTANT THAN SAFETY.

The Portland School Board and Safety Department ~~have~~ failed to protect the health and safety of our children and teachers. When PPS spent \$3 million to install WiFi they failed to research the "biological effects of pulsed radio frequency microwave radiation:" <http://www.wifiinschools.com/science.html>.

"The World Health Organization classified WiFi radiation a Class 2B Carcinogen" as dangerous as DDT and Lead: http://www.iarc.fr/en/media-centre/pr/2011/pdfs/pr208_E.pdf 3-25-13

Presently over 60 appeals from organizations around the world (including; The American Academy of Environmental Medicine, The American Association of Pediatric Physicians, the L.A. Teachers Union, and the Council of Europe), call for the "removal of WiFi from schools:"

<http://www.safeinschool.org/2011/01/international-warnings-on-wi-fi.html> 3-25-13

~~According to~~ Dr. Martha Herbert, a Pediatric Neurologist at Harvard Medical School and Dr. David Carpenter a Harvard educated public health physician in Albany, N.Y. ^{SAY} It is "urgent we remove WiFi from schools or face a public health emergency:"

<http://www.wifiinschools.com/lausd-testimony.html> 3-25-13

The National Education Association (2012-2013) states: ~~that~~ "all educational facilities must ... be safe from hazardous electromagnetic fields:"

<http://www.nea.org/assets/docs/nea-resolutions-2012-13.pdf> 3-25-13

Students face 7 hours exposure to microwave radiation every day. "There are no safe exposure levels for children – none, zero. Low Level Radiation directly affects genes, damaging DNA:"

<http://us-mg5.mail.yahoo.com/neo/launch?.rand=8atk0duf474jv#mail> 3-25-13

"Studies now confirm sperm damage from laptop computers:" What are we doing?!

If elected I will request that the board replace WiFi with safe cabled internet.

Additionally the best use of computers needs to be reassessed. "Are kids leaving a 3 dimensional world for a two dimensional screen" and trading their sense of taste, touch and smell for Facebook? We shouldn't let computers replace teacher student interaction, tactile experience, exercise and sunlight:

The installation of Wi Fi by the School District exhibits an underlying failure in their current style of problem solving and needs to be addressed before our children are put at risk -- again.

VOTE FOR SAFETY, AWARENESS AND ACCOUNTABILITY

NOTHING IS MORE IMPORTANT THAN SAFETY.

The Portland School Board and Safety Department have failed in their highest duty -- to protect the health and safety of our children. When PPS spent 3 million dollars to install a wireless internet infrastructure they failed to research the biological effects of pulsed radio frequency microwave radiation: <http://www.wifiinschools.com/science.html>.

Since that time the W.H.O. has classified Wi Fi Radiation a Class 2B Carcinogen with DDT and Lead. Portland students face 7 hours of daily compulsory irradiation which totals 25,920 hours of exposure to low level Radiation within 12 years:

Presently over 60 appeals from international organizations call for the removal of Wi Fi from schools including; The American Academy of Environmental Medicine, The American Association of Pediatric Physicians, the L. A. Teachers Union, and the Council of Europe:

According to Martha Herbert, MD, PhD, Pediatric Neurologist Harvard Medical School and Dr. David Carpenter a Harvard educated public health physician in Albany, N.Y., it is urgent we remove Wi Fi from schools or we face a "Public Health Emergency" of epic proportions:

<http://www.wifiinschools.com/lausd-testimony.html>

If elected I will solicit the board to replace wireless internet with the already existing, safe, more reliable, hardwired internet infrastructure and hire specialists for the Safety Dept. who are up to date on the biological challenges of wireless technology.

Additionally we need to take a look at computer use overall. Are kids leaving a 3 dimensional world for a two dimensional screen and trading their sense of taste, touch and smell for Facebook? We shouldn't let computers replace enlightened pedagogy, tactile experience, good teachers and sunlight:

The installation of Wi Fi by the School District exhibits an underlying failure in their current style of problem solving and needs to be addressed before other mistakes are made that may again--put our children at risk.
