Portland State University, BS, General Management, Materials Management and Production Operations, Minors in Finance and Psychology.

Prior Governmental Experience: (Elected or Appointed)

NAME OF CANDIDATE:

MCED 009 (01/2008)

OPTIONAL INFORMATION

I am a life long Oregonian. In addition my wife of 45 years and I have resided in the David Douglas School District since 1989. Our youngest daughter graduated from David Douglas High School and we currently have 4 teenage grandchildren enrolled in the District, two of whom we are raising.

I have been in various levels of management for over 40 years. The most important lesson I have learned is that it is less important how much you have than in how you use it. You can not consistently be asking for more when you are not maximizing what you have. Also it is difficult to develop effective systems and processes unless everyone involved shares the same vision and commitment.

I believe that the fundamental purpose of schools is to provide a world class educational opportunity for every student. All else should be secondary to that goal. We spend more dollars per student than any other developed country except Switzerland, yet in reading, math, and the sciences we trail almost all other developed nations. Finland spends a third of what we do and is consistently ranked near the top in performance. If we are putting more and more resources into education systems but are seeing less results, something needs fixed. You cannot keep doing the same things and expect different results. We must strive to improve the things we are responsible for and we cannot do that if we are not willing to examine all the issues in an open and unbiased manner. In these times of fiscal challenges it is critical that those charged with the responsibility of overseeing our educational systems be willing and able to be innovative. I believe that my education, experience, combined with a fresh viewpoint, makes me ideally suited for this position. +
~~will work diligently for our children.~~
