

# Memo

Date: July 1, 2022  
 To: Transportation Policy Advisory Committee (TPAC), Metro Technical Advisory Committee (MTAC) and interested parties  
 From: Lake McTighe, Regional Planner  
 Subject: June 2022 Report - Traffic Deaths in the three counties

The purpose of this memo is to provide a monthly update to TPAC, MTAC and other interested parties on the number of people killed in traffic crashes in Clackamas, Multnomah and Washington Counties in 2022. <sup>1</sup>

In June, six people died in traffic crashes in in the region. Five in Multnomah County, one in Clackamas County and one in Washington County. So far this year, 57 people have been killed in traffic crashes, an average of 3 people every day. Nearly half of the traffic deaths (25) have been people walking or in a wheelchair.

There are typically several factors that contribute to the seriousness of crashes. These include speed, driver behavior, roadway design, visibility, and vehicle size; when crashes occur at higher speeds and/or when larger vehicles are involved there is a greater likelihood of the crash being serious.

### A note on crash data

Metro includes the names of traffic crash victims included in this report based on the most recently available traffic crash data compiled by the Oregon Department of Transportation (ODOT), as well as police and news reports. ODOT compiles the official crash record for the state using traffic crash investigations and self-reported information. Metro follows national traffic crash reporting criteria, which the Portland Bureau of Transportation also uses. The criteria excludes people who die under the following circumstances:

- More than 30 days after a crash,
- Intentionally (suicide),
- In an act of homicide (a person intentionally crashes into another person),
- In a crash not involving a motor vehicle,
- From a prior medical event (e.g. a heart attack or drug overdose), or
- In a crash in a parking lot
