

Multi Disciplinary Team (MDT) Contacts for DC and EE case managers

Updated 5.8.24 – information is subject to change

The MDT at each ADVSD branch serves clients living within that branch's service boundaries. EE partners in particular should refer to the MDT at the ADVSD branch that matches the client's home address. Best practice is to provide the **Clinical Service Specialist (CSS)** with the client's address when making a referral so that they can make sure you are contacting the correct team.

You may refer to MDT for support with **OPI, OAA case management, and Family Caregiver Support Program clients**. For details regarding MDT supports: [APS & MDT - When to Make a Referral](#) Meetings are held at the MDT branch; phone attendance may be an option.
