

Annual Average Number of Opened Jail Beds

Note: The following table reports the historical average annual opened beds in both calendar and fiscal years (from July 1 to June 30). Since the number of opened beds changes throughout the year as jail facility dorms open and close (typically for repairs, in response to changes in services, and as a result of changes in funding), the number of open beds have been standardized on a *per-day average*.

Note: The MCSO Jail Capacity History did not give exact dates for changes until 1998 but instead listed only the month. In these cases, the first day of the month is used which may effect the average daily calculation an immaterial amount. Calculations do not include weekend TSI use of the Courthouse Jail.
