Targeted Inmate/Resident/Detainee Interviews	
45. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	6
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

71. Did you have access to all areas of the facility?

☒ Yes

☐ No

Was the site review an active, inquiring process that included the following:

72. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?

☒ Yes

☐ No

73. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?

☐ No

76. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).	No text provided.
Documentation Sampling	
Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.	
77. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?	<input checked="checked" type="radio"/> Yes <input type="radio"/> No
78. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).	No text provided.
SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY	
Sexual Abuse and Sexual Harassment Allegations and Investigations Overview	
Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.	

79. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for “convicted.”) Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

81. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

Interviews with Juvenile Detention Senior Manager, PREA Coordinator, PREA Compliance Manager, and staff that conduct unannounced rounds</p> <p>Findings:</p> <p>(a) The facility has developed, implemented, and maintained a comprehensive staffing plan that ensures adequate levels of staffing and video monitoring to protect residents from sexual abuse, to include:</p> <p>(1) Generally accepted juvenile detention and correctional/secure residential practices.</p> <p>(2) Any judicial findings of inadequacy.</p>

- (3) Any findings of inadequacy from Federal investigative agencies.
- (4) Any findings of inadequacy from internal or external oversight bodies.
- (5) All components of the facility's physical plant (including "blind spots" or areas where staff or residents may be isolated).
- (6) The composition of the resident population.
- (7) The number and placement of supervisory staff.
- (8) Institution programs occurring on a particular shift.
- (9) Any applicable State or local laws, regulations, or standards.
- (10) The prevalence of substantiated and unsubstantiated incidents of sexual abuse; and
- (11) Any other relevant factors.

During the site review the auditor compared the written staffing plan against the current observations and determined that the staffing plan adequately assesses the staffing and/or electronic monitoring needs of the facility with sexual safety in mind, and, that the facility is staffed according to the plan, as it is written. Staffing ratios in the housing unit are 1:8 during waking hours and 1:16 during sleeping hours. No blind spots were observed. Room checks in housing areas occur within 15-minute staggered intervals. The facility has sufficient camera placement.

(b) The facility maintains compliance with the staffing plan, with deviations occurring only in rare exigent circumstances. All deviations are thoroughly documented, including justification and any mitigation measures taken.

(c) The facility has maintained full compliance with the minimum staffing ratios of 1:8 during waking hours and 1:16 during sleeping hours, as required since before the October 1, 2017, deadline. Deviations due to exigent circumstances are rare and are fully documented.

(d) As evidenced by the PREA Annual Report submitted, the PREA Coordinator and the PREA Compliance Manager conducts an annual review of the staffing plan and monitoring systems. This review evaluates current practices, video monitoring effectiveness, and resource adequacy. Any adjustments are documented as part of the annual assessment.

(e) The facility has a written policy requiring a Detention Senior Manager, a CJM or Night Lead will conduct and document random and unannounced walk-throughs of all units during each shift. Staff are prohibited from alerting staff/units of a manager's presence as they approach and move through secure units. The auditor reviewed the facility inspection report for compliance. Unannounced rounds were observed.

8. Interviews with random residents and intake staff

Findings:

(a) At the time of intake, the agency provides all residents with age-appropriate information explaining its zero-tolerance policy for sexual abuse and sexual harassment. Residents are also informed of the multiple ways they can report incidents of abuse or harassment. As part of the site review, the auditor observed how sexual safety information (PREA information/zero-tolerance information) is provided at the point of intake or transfer. Interpretation service information is readily available to intake staff.

(b) Within 10 days of secure juvenile custody or community confinement placement, DCJ justice involved individuals will receive education / orientation that consists of:

1. No sexual contact is permitted between residents within a community confinement or detention setting. All sexual contact will be investigated. Any "consensual" findings will result in disciplinary action.
2. Zero tolerance of sexual victimization policy;
3. How to report incidents; and
4. False and deliberately malicious reports will result in disciplinary action or criminal charges.

During the site review, the auditor observed how comprehensive education is provided and verified that each unit contained continuous PREA information through signage posted.

(c) The agency ensured that all residents who had not previously received this education were provided the required information within one year of the PREA standards' effective date. Residents who are transferred to or from other facilities receive updated education when applicable to ensure continued awareness of their rights and reporting options.

	<p>(d) PREA education is made accessible to all residents, including those with limited English proficiency, visual or hearing impairments, intellectual or developmental disabilities, or limited literacy skills. The agency uses appropriate communication methods to ensure full understanding. posters were visible in all living areas.</p> <p>(e) Resident participation in PREA education sessions is documented for each individual, verifying that the training has been received and understood.</p> <p>(f) Key PREA-related information is permanently posted throughout the agency, including in all housing units, program areas, and other common spaces. 115.342 Placement of Residents in Housing, Bed, Program, Education, and Work Assignments

Evidenced Analyzed:

1. DCJ (Department of Community Justice) Sexual Victimization Prevention and Response -- Secure Custody and Community Confinement Policy

2. Pre-Audit Questionnaire (PAQ)

3. Intake Health and Safety Screening Policy

4. PREA Risk Assessment

5. Gender Safety Planning Questionnaire

6. Interviews with PREA Coordinator, PREA Compliance Manager, staff responsible for risk screening, Juvenile Detention Senior Manager, and medical and mental health staff. There were no residents in isolation for risk of sexual victimization or who alleged to have suffered sexual abuse. There was no transgender, intersex, gay, lesbian, or bisexual residents. There are no staff that supervise isolation.

Findings:

(a) The facility uses the results from the PREA risk screenings and Gender Safety Planning Questionnaire. Vulnerability assessment results gathered during the intake process along with any updated information, to make individualized decisions regarding unit assignments with the primary goal of protecting residents from sexual abuse and ensuring their safety within the facility.

(b) Residents are not placed in isolation. The facility does not use Isolation. Each resident is provided with a single occupancy sleeping room.

(c) The agency does not base housing, bed, program, or work assignments solely on a resident's actual or perceived LGBTI status. Such status is never treated as an indicator of potential abusiveness and does not restrict access to programs or housing.

(d) Placement decisions for transgender and intersex residents are made on a case-by-case basis, with primary consideration given to the resident's health and safety. Security concerns are also considered to ensure balanced and appropriate placement decisions.

(e) The agency reassesses the housing and programming placements of all transgender and intersex residents at least twice per year. These reassessments help ensure ongoing safety and appropriate accommodations based on any changes in the resident's status or risk level.

	<p>(f) The agency gives serious and documented consideration to the views of transgender and intersex residents regarding their safety and placement preferences. These perspectives are a critical part of the decision-making process and are factored into each resident's individual placement plan.</p> <p>(g) Transgender and intersex residents are consistently offered the option to shower separately from other residents. This measure is intended to support personal dignity, reduce vulnerability, and reinforce the agency's commitment to safety.</p> <p>(h) Residents are neither segregated nor isolated.</p> <p>(I) Residents are neither segregated nor isolated.</p>

If the resident declines to proceed, the agency documents that decision. Parents or legal guardians of juvenile residents may file grievances and appeals without needing the juvenile's agreement. Third party reporting method was tested.</p> <p>(f) The agency has procedures in place for responding to emergency grievances that allege a substantial risk of imminent sexual abuse. These grievances are immediately routed to a supervisory level where prompt corrective action can be taken. Residents receive an initial response within 48 hours, and a final decision is issued within five calendar days. Both responses document whether the resident was determined to be at substantial risk and describe the actions taken to address the concern.</p> <p>(G) The agency strictly prohibits disciplinary action against any resident for filing a grievance related to sexual abuse unless it is determined, through clear evidence, that the grievance was submitted in bad faith. 2. Pre-Audit Questionnaire (PAQ)

3. Mandatory Abuse Reporting Policy

4. Interviews with the Juvenile Detention Senior Manager, medical and mental health staff, and random staff

Findings:

(a) It is the policy of the Department of Community Justice to consider all department personnel mandatory reporters who are expected to formally report any known or suspected abuse of a child, elderly person, mentally ill individual, or developmentally disabled individual to either the Department of Human Services or a police department. All agency staff are required to immediately report any knowledge, suspicion, or information regarding incidents of sexual abuse, sexual harassment, retaliation against individuals involved in such reports, or staff neglect or violations of responsibilities that may have contributed to an incident. This reporting requirement applies to incidents occurring both within the agency and at other facilities.

(b) Staff adhere strictly to mandatory child abuse reporting laws, ensuring that all applicable allegations involving minors are referred without delay to the appropriate state or local child protection authorities. Any DCJ staff who has knowledge, suspicion, or information regarding sexual victimization that occurred in a secure facility or community confinement center (within DCJ or outside of DCJ) is required to fill out a DCJ PREA Incident Report with as much information as possible and submit the form to an on-duty manager.

(c) The agency enforces strict confidentiality protocols. Staff are prohibited from disclosing any information related to a report of sexual abuse or harassment, except to individuals who are directly involved in providing treatment to the resident, conducting investigations, or ensuring facility security.

(d) Medical and mental health practitioners employed by or working in the facility are required to report all suspected incidents of sexual abuse to designated supervisory personnel and the appropriate outside agencies. Prior to delivering services, these practitioners inform residents of their obligation to report and clearly explain any limitations on confidentiality.

(e) When an allegation involves a juvenile resident, the facility head, or designated official promptly notifies the appropriate agency officials and the resident's parent or legal guardian. If the juvenile is in the custody of a child welfare agency, their caseworker is contacted. If the juvenile is under the jurisdiction of the juvenile justice system, their attorney or legal representative is also notified within 14 days of the allegation.

(f) The agency ensures that all allegations of sexual abuse or harassment—including

	those made anonymously or by third parties—are immediately referred to the appropriate investigative authorities for review and action, in accordance with PREA standards.
