## Lake Oswego SD Measure

### 3-515 Bonds for Improvements, Curriculum Support Facilities, Safety and Technology Upgrades

**Question:** Shall Lake Oswego School District issue general obligation bonds totaling \$187,000,000 to upgrade, construct, modernize, and improve safety and technology? If the bonds are approved, they will be payable from taxes on property or property ownership that are not subject to the limits of sections 11 and 11b, Article XI of the Oregon Constitution.

**Summary:** If approved this measure would finance capital costs, including projects that:

- Provide capital improvements throughout the District, replace and upgrade deteriorating roofs, technology infrastructure, aging heating, ventilation and plumbing systems.
- Expand vocational/career/technical classrooms for programs such as engineering, science and technology for middle and high school students.
- Strengthen schools against earthquakes and improve safety and security systems.
- Update or replace facilities, learning equipment, technology in classrooms, science labs and other facilities, including district pool.
- Modernize and renovate existing primary and high school facilities; provide furnishings, equipment and site improvements.
- Pay bond issuance costs.
- Replace Lakeridge Junior High School.

Citizen accountability and oversight and annual audits of bond projects and expenditures will be required.

The bonds may be issued in multiple series and each series may mature over no more than 26 years.

Bond cost is estimated at approximately \$1.25 per \$1,000 of taxable assessed property value. For this measure, the cost for a median assessed value (AV) house of \$340,000 in Lake Oswego would be approximately \$425 per year.

Yes

No
