Precinct Changes from 1980 General to 1982 Primary by Old Precinct Numbers

This is a listing of precincts for the 1980 General Election describing their alteration for the 1982 Primary Election. (Such description is also good for the March 30th Special District Election.)

Three basic alterations may have taken place:

- 1) The old precinct may have been abolished. If so, this listing will indicate "Abolished" and list the precincts its territory has been given to.
- 2) The precinct may have been divided; part of the old precinct remains. This listing shows the precinct or precincts that part of its territory was given to.
- 3) The precinct may have been added to. This listing shows the precincts or parts of precincts incorporated into it.

Frequently a precinct will have been both divided and added to. Other than parts or wholes, this listing will not indicate how much of a precinct has been taken away by division or how much of another precinct has been added. If a precinct number is accompanied by the word "All", it means the whole precinct was added to another; otherwise consider it to be a part of the precinct.

There is a set of 1980 General Election precinct maps hand colored to show the exact alterations.
