Project Background

The County applied for and was awarded a Safe Routes to School Infrastructure Grant

- This grant opens every other year and is scored based on certain criteria. The goal is to create safer routes near schools.
- This project will install missing sidewalk on the west side of 223rd and add bike lanes on both sides of the road for a safer commute from 223rd to Fairview Elementary School.

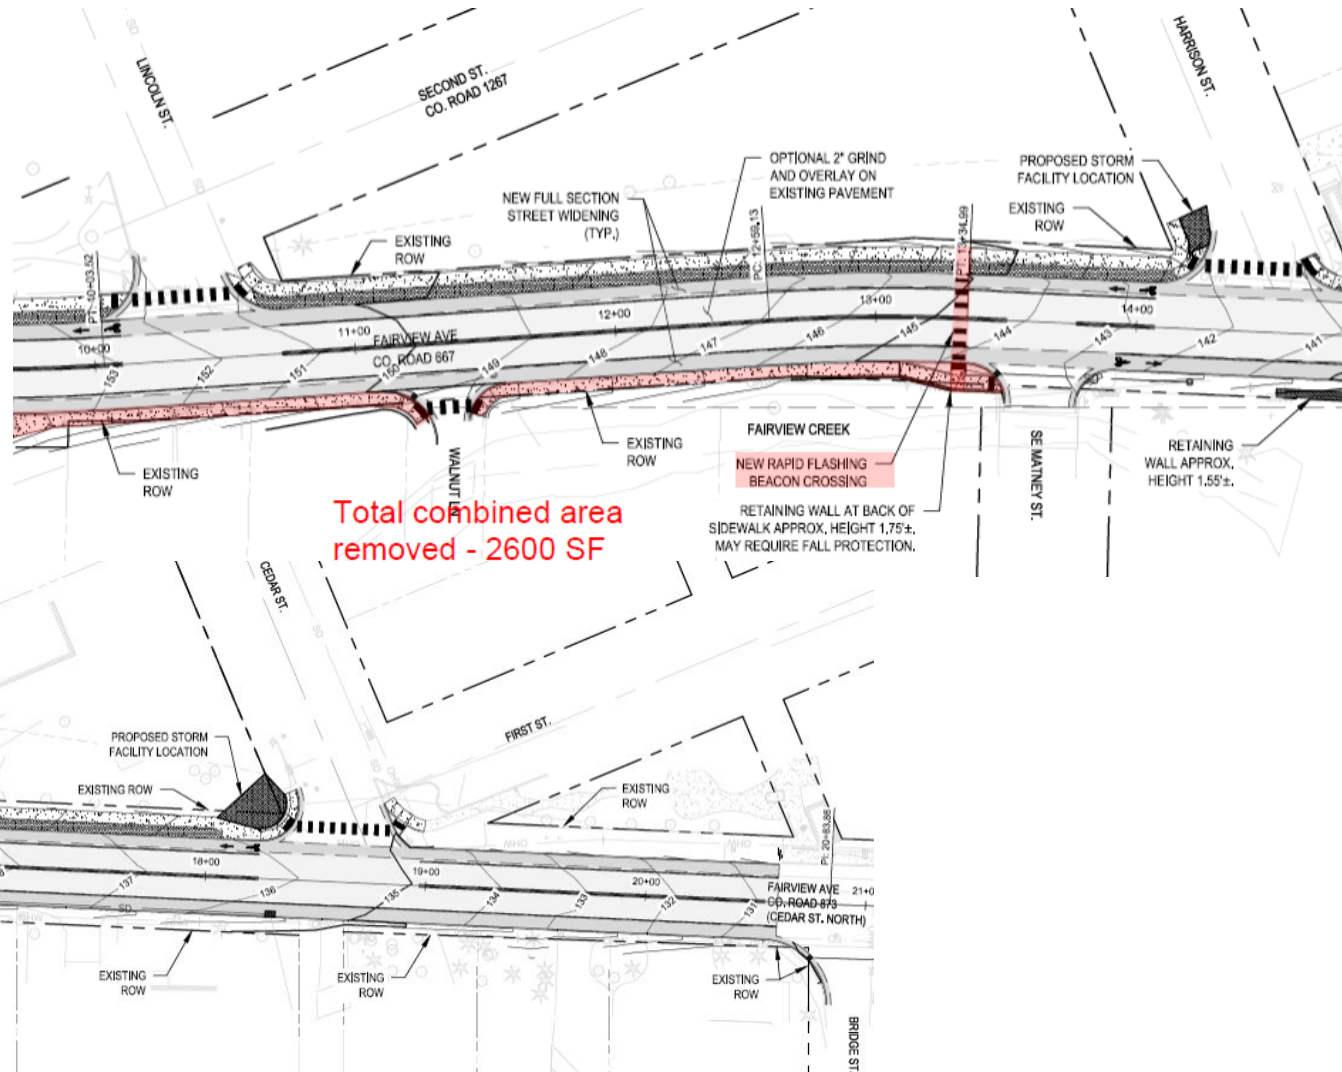

Multnomah County ADA Transition Plan

- This project will replace ADA ramps that are included in the overall ADA transition plan.

Design Overview

- Bikes lanes
- ADA ramps
- Sidewalks
- Water Quality Treatment

Sidewalk Connection @ Lincoln St

Current Google View @ Matney St

Sidewalk Connection @ Cedar St

Project end @ Bridge St

Schedule

● Design & ROW – Through Spring 2026

- Land/road survey was updated and design is beginning now.
- A design was included in the grant so it will need to be updated and details finalized.
- ROW will be needed for at least Temp Construction Easements. Possibly more depending on the water quality options.

● Construction - Summer 2026

- Currently at about 30% design.
- Grant funds are available for 5 years after execution which was 2023 so they will be available until 2028.

● Public Outreach

- Website to have regular updates as needed - News releases for Traffic
- Mailer to go out prior to construction to neighborhood
- Multnomah County Bicycle and Pedestrian Citizen Advisory Committee Presentation TODAY!
- Flyers at community events
