

Multnomah County BPCAC

E. HCRH and Buxton Rd. Intersection Improvements

Department of Community Services
Transportation Division

January 13, 2021

Initial Issue

- Traffic backup on HCRH towards 257th due to high volume of vehicles turning from HCRH to Buxton in a single lane
- High volume of pedestrians crossing HCRH stopped traffic, leading to increased congestion

Initial Improvements

- Added right turn lane to improve thru traffic movement on HCRH
- Added green bike lane for visibility and safety

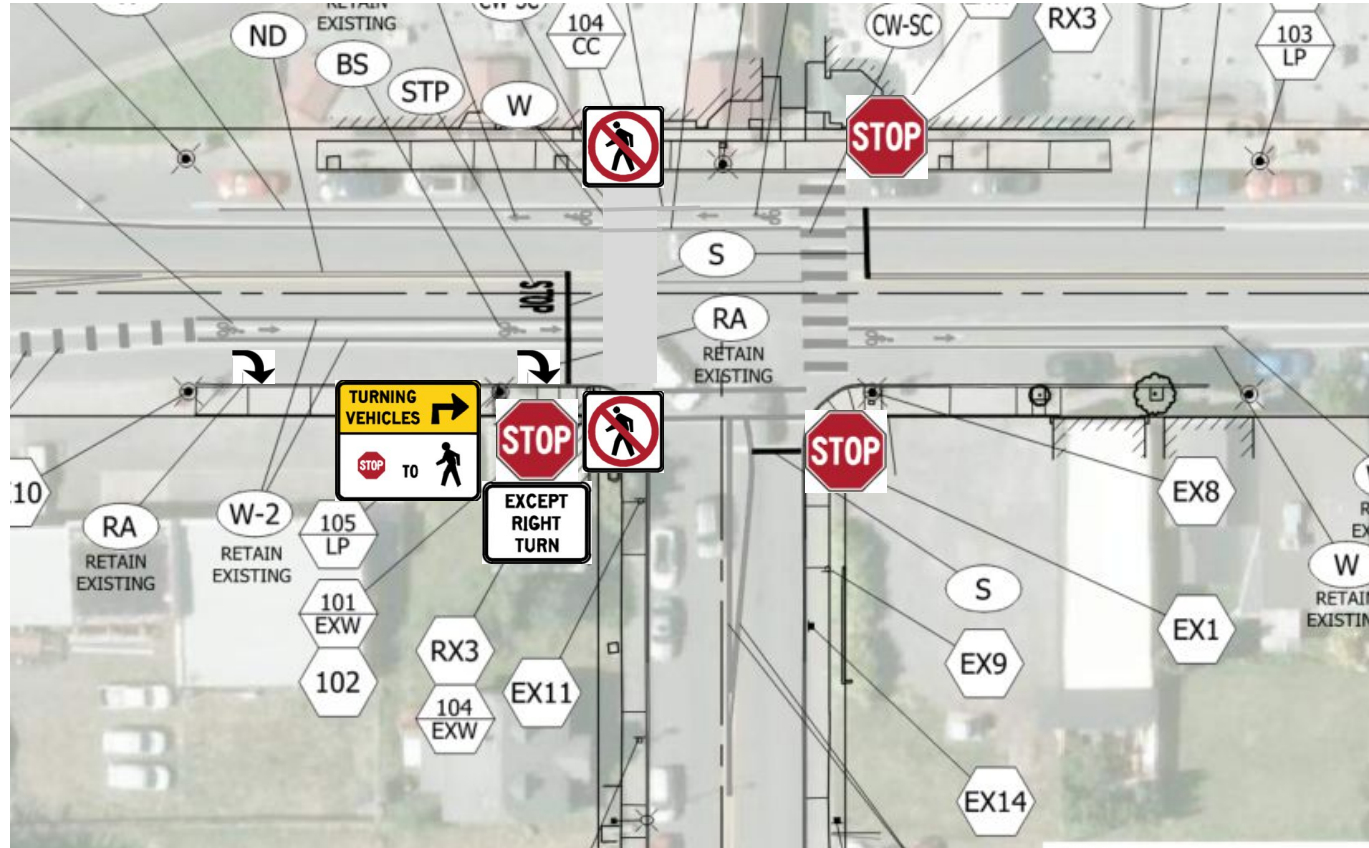

New Issues

- In the AM, long queues form on Buxton due to heavy traffic on HCRH
- Ped conflicts with right hand turn lane from HCRH to Buxton

Proposed Solution

- All way stop except for right turn from HCRH to Buxton
- Close west crosswalk
