

**Bicycle and Pedestrian Community
Advisory Committee
July 12, 2023**

Project Background

Since 2017, the cities of Fairview, Wood Village, and Troutdale have been working together to create a shared vision for NE Halsey Street as it runs from 201st Avenue to 257th Drive. The *Main Streets on Halsey* project is a multi-jurisdiction, multi-phase project that seeks to transform the three-mile stretch of NE Halsey Street into a "main street". Thanks to public input, city officials now envision a unified main street marked by pedestrian and bicycle-friendly features, public gathering spaces, new housing, bustling shops and restaurants, pubs, and coffee shops.

Past Projects/Phases

1. Halsey Economic Action Plan and Economic Opportunities Study
 - HC3 Working Group
2. Code Concept Recommendations

Project Area

Main Objectives

1. **Unite the three cities to build community and drive economic development;**
2. **Make Halsey Street safer, more accessible, and more visually attractive;**
3. **Create more transportation options and make public transit, walking, and biking more appealing;**
4. **Support existing small businesses, attract new businesses and create new jobs; and**
5. **Improve the environment by reducing pollution, planting street trees, and using cost-efficient, sustainable landscaping**

Main Streets on Halsey Cross Section and Street Design

- We heard the previous phases that the community wants safer streets for people walking, biking, taking the bus and driving along the Halsey corridor. This project aims to establish preferred ideas for road and sidewalk changes.
- Build on the success of previous phases of the project and provide input in the revision of Multnomah County DCM
- Advise the revision of Multnomah County's street design standard for Halsey
- Develop 10% design plans for the project corridor
 - New cross sections and design plans will reflect the unique character of each community while providing continuity among the corridor

URBAN ARTERIAL CROSS SECTION

SURFACING MATERIAL & THICKNESS SUBJECT TO STRUCTURAL DESIGN

MINIMUM TYPICAL THICKNESS
 330mm OF 25-0mm AGGREGATE BASE MATERIAL
 150mm OF CLASS B/C ASPHALTIC CONCRETE (TWO LIFTS)

DESIGN SPEED = 55 – 70 km/h

Road Classification	Criteria ¹	Right-of-Way (Meter)	Paved Width (Meter)	Number of Lanes	Sidewalk (Meter)	Planting Strip (Meter)	Bike Lane (Meter)	Curb Travel Lane (Meter)	Travel Lane(s) (Meter)	Median or ³ Center Turn Lane (Meter)
		A	B		C	D	E	F	G	H
Principal/Major Arterial	Min. / Max.	24.4 / 35.1	19.8 / 25.2	5	1.8 / 2.4	0 / 2.4	1.5 / 1.8	3.3 / 4.2	3.3 / 4.2	3.6 / 4.8
	Pref.	30.6	22.2	6	2.1	1.8	1.8	3.6	3.6	4.2
Minor Arterial	Min. / Max.	24.4 / 32.1	13.2 / 22.2	3 / 5	1.6 / 2.4	0 / 2.4	1.6 / 1.8	3.3 / 3.6	3.3 / 3.6	3.6 / 4.2
	Pref.	27.4	13.8	3	1.8	1.8	1.8	3.3	3.3	3.6

- NOTES:**
1. Min. = Minimum, Max. = Maximum, Pref. = Preferred.
 2. Easement, See section 2 of Design Manual.
 3. Also see section 2.2.4.

Project Schedule

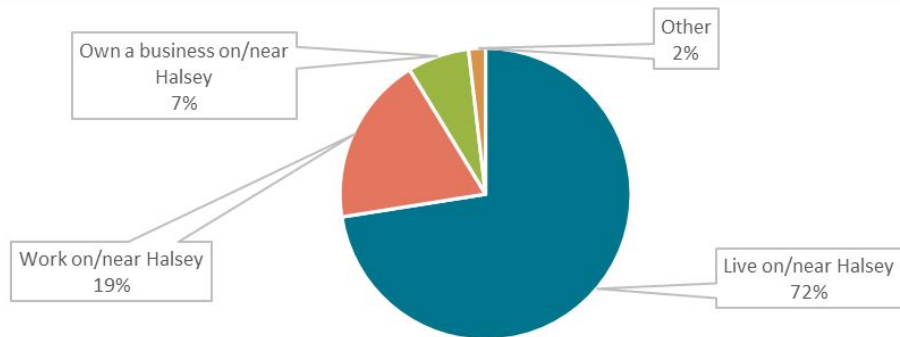

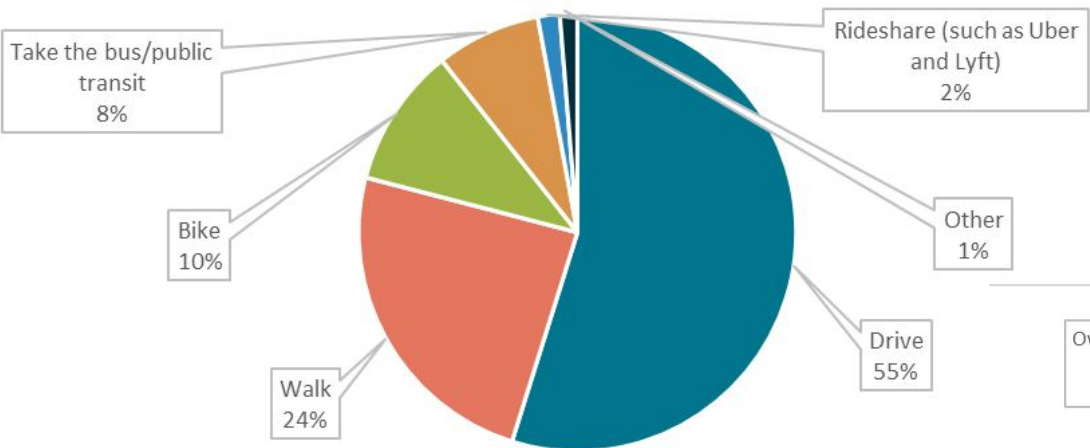

Project Management	Throughout	2022
Public and Agency Involvement Plan	Throughout	2022
Cross Section Deficiencies and Needs	October - February	2022
Public Event #1	February	2023
Alternatives Development	February - July	2023
Develop a Street Design Plan	August - October	2023
Adoption	November - January	2024

Survey Results

How do you get around the Halsey corridor?

Survey Results

Most liked:

- **not too crowded** or busy with traffic
- direct **connection** to multiple areas such as the freeway, restaurants, and shopping
- **easy to use** for exercise/recreation (ease of biking and public transit)
- **parks** and natural areas

Most wanted:

- **safety** (the highest priority)
- consistent **sidewalks**
- **greenspaces**
- improved **lighting**
- **turn lanes**
- **speed** enforcement with maintained access
- **welcoming** environment for businesses and visitors

Stakeholder Engagement

- **Two main stakeholder groups;**
 - **Technical Advisory Committee (TAC)- consists of City, County, Region and State agencies**
 - **Project Advisory Committee (PAC)- consists of local residents, property owners, business owners and representatives of local organizations.**

- **Targeted Outreach**
 - **Listening sessions for Spanish, Ukrainian population**
 - **Focus group for business owners in Halsey as well as Youth**

Pedestrian Facilities and Context Zones

- Halsey Street is a Multnomah County Minor Arterial Facility
- Three Context Areas has been identified based on the existing and unique land uses on Halsey.
 - Residential, Commercial and Edgefield.
- Safety and Equity continues to be main concerns for the corridor

Streetscape and Roadway Design Toolkit

- **Traffic Calming Features**
 - Curb extension
 - On street parking
- **Intersection Treatments**
 - Protected intersection
- **Pedestrian Treatments**
- **Pedestrian Amenities**
 - Lighting and benches
- **Civic Identity and Wayfinding**
 - Signage, Public Art
- **Green Street Strategies**
 - Stormwater Planters, Rain Garden
- **Bicycle Facilities**
 - Bike racks, bike lanes
