Community Profile- Sandy Blvd

Residents living along Sandy Blvd. rely on this corridor for all modes of transportation, particularly for residents in the noted Census block between Sandy and I-84, where there is limited north-south connectivity. The residential development within the NE Sandy Blvd. project area from NE 201st to Quail Hollow consists of:

- **8 mobile home parks:** 584 units including a 137-unit senior community
- **2 RV parks:** 430+ long-term rental spaces
- **4 apartment complexes:** 310 units
- **A manufactured home subdivision:** 52 homes

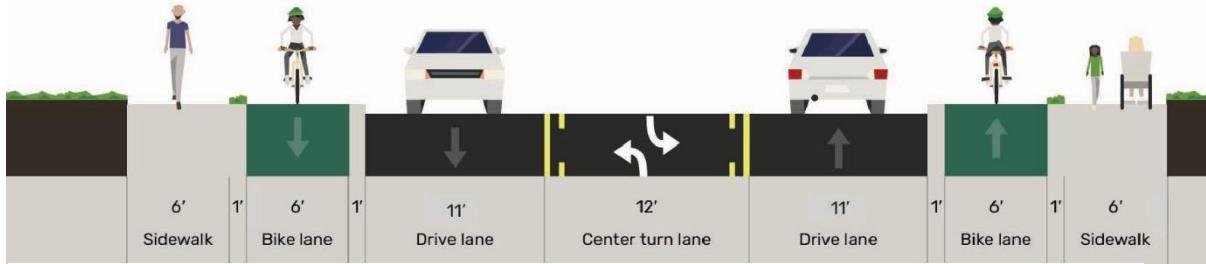

Safer Sandy- Project Limits

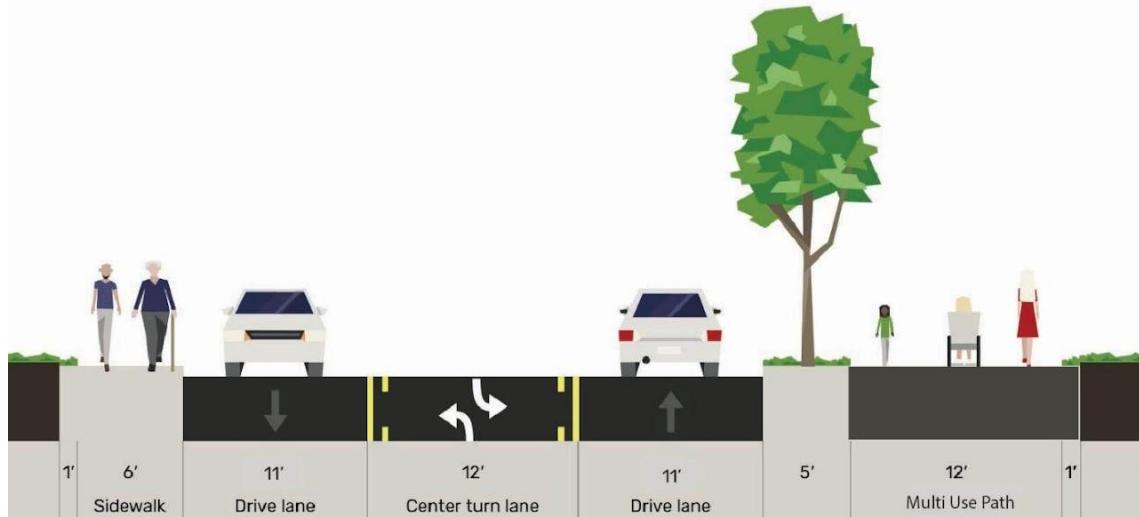

Sandy Blvd

Safer Sandy Project

Option A- Separated
bike lanes and
sidewalks on both
sides

Option B - Multi-use Path and
sidewalk

Sandy Blvd

Phase II Takeaways

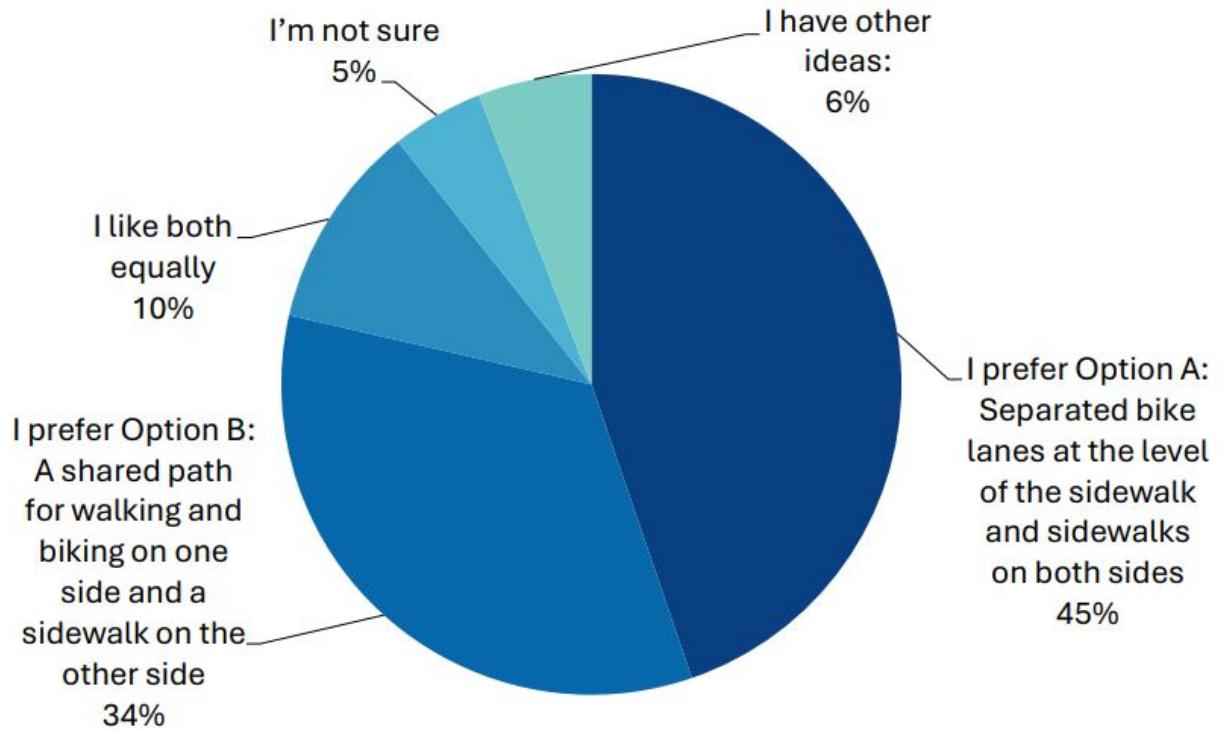

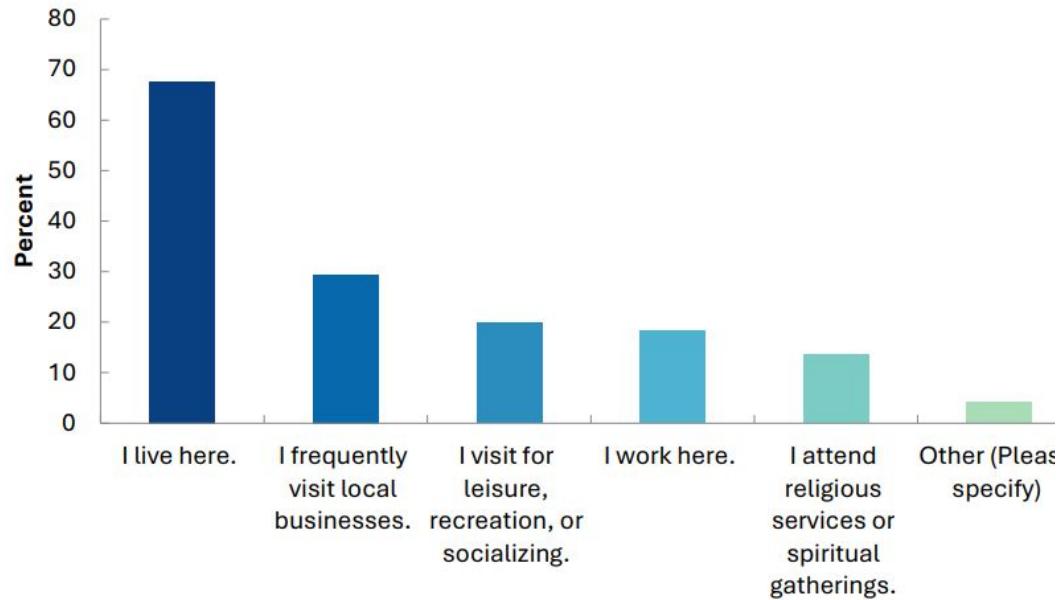

- **Design Preference:** Option A (separated bike lanes at the level of the sidewalk and sidewalks on both sides) was slightly preferred over Option B
- **Top Priorities:** The main concerns were safety while walking or rolling, efficient travel, and safer biking.
- **Diverse Participation:** Materials were shared in English, Spanish, Russian, and Ukrainian. In-language survey responses (Spanish, Russian, or Ukrainian) accounted for 25% of all results.
