

# **SW 257th Dr. Corridor Safety Improvements**

EMCTC TAC Presentation

Oct. 5th, 2022

Stephen McWilliams  
&  
Emily Miletich

# Project Overview

- Multimodal Safety Improvements from SW Sturges Drive to SE Stark Street
- Average Daily Traffic is 18,000 vehicles per day, 60% cars, 40% trucks/busses
- Estimated Cost: Approx. \$6 million

# Why is this Project Needed?

---

- Between 2016 - 2020, a total of 192 crashes involving people walking, driving, and biking
- 257th experiences up to 7 crashes or more per year compared to similar corridors in the region
- Barriers to accessibility, narrow sidewalks, Non-compliant ADA ramps
- Failing Pavement
- Long crosswalk spacing
- Poor access to transit and bus stop facilities

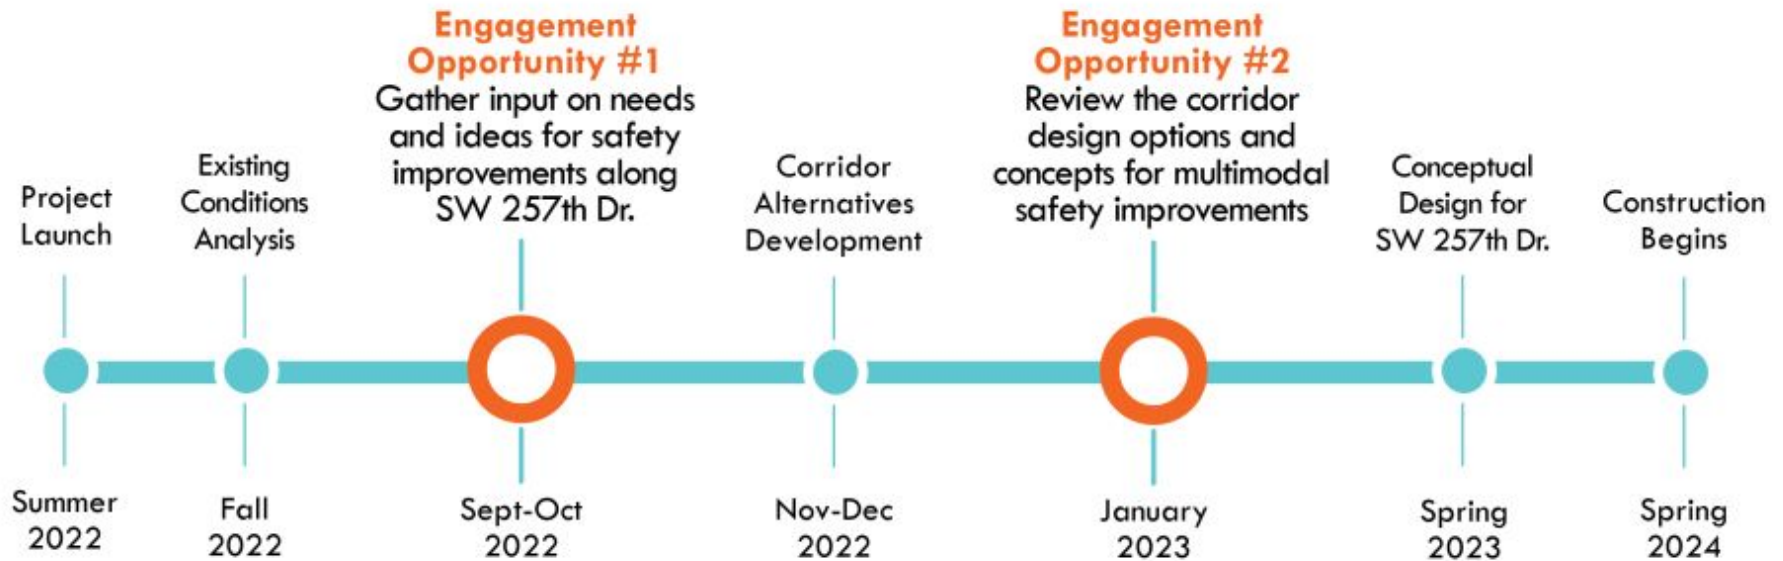

# Project Goals

---

- Improve safety for everyone who uses the corridor, including those walking, using a mobility device, bicycling, driving or using the bus.
- Create comfortable space for people walking, using a mobility device, bicycling or using the bus.
- Maximize community benefits by building the highest priority improvements.
- Build community support through early outreach with the 257th community.
- Maintain County roads for user safety and freight access.

# Project Timeline

- Currently in Engagement Opportunity #1
  - Gathering community feedback on *issues* users face walking, rolling, driving, biking, and conducting freight business along the corridor

- Survey includes an interactive map to pin problem areas and issues
- Survey went live September 23rd
  - Closes October 31st
- Advertisement of the Survey
  - Mailers to over 3,000 addresses within ¼ mile of project
  - Tabling Events
  - Placing Flyers in Focused areas along the corridor
  - Social Media Posts/Project Videos

- Interactive opportunity for community to walk the corridor with project leaders, get a tour of the project area and point out issues along the corridor

### **Two tours:**

- Elected leaders/government staff - *Friday, October 14th, 3:00 pm - 4:00 pm*
- Community focused: schools, residents, bike and pedestrian advocates like members of the Multnomah County BPCAC - *Thursday October 13th, 5:00 pm - 6:30 pm*

- Provides opportunity for dynamic dialogue amongst the top five non-English speaking communities near the corridor:
  - Spanish
  - Vietnamese
  - Chinese
  - Arabic
  - Russian

**Lead by community engagement liaisons who have built trust, rapport and relationships with these communities.**

# Survey Walk-through:

Please fill out survey here:  
[multco.us/257th](https://multco.us/257th)

- Conduct technical evaluation of feedback of survey and outreach events
- Develop transportation *solutions* based on *issues* heard during Engagement Opportunity #1
- Bring the transportation priorities back to the community in January for review and alternatives selection

Installing enhanced  
crosswalks

Bike lane safety  
improvements

Bus stop  
enhancements

# Questions?
