

Troutdale is the connection between the Portland Metro area and world-class outdoor recreation areas like the Columbia River Gorge and Mount Hood. It is the gateway to key regional tourist destinations.

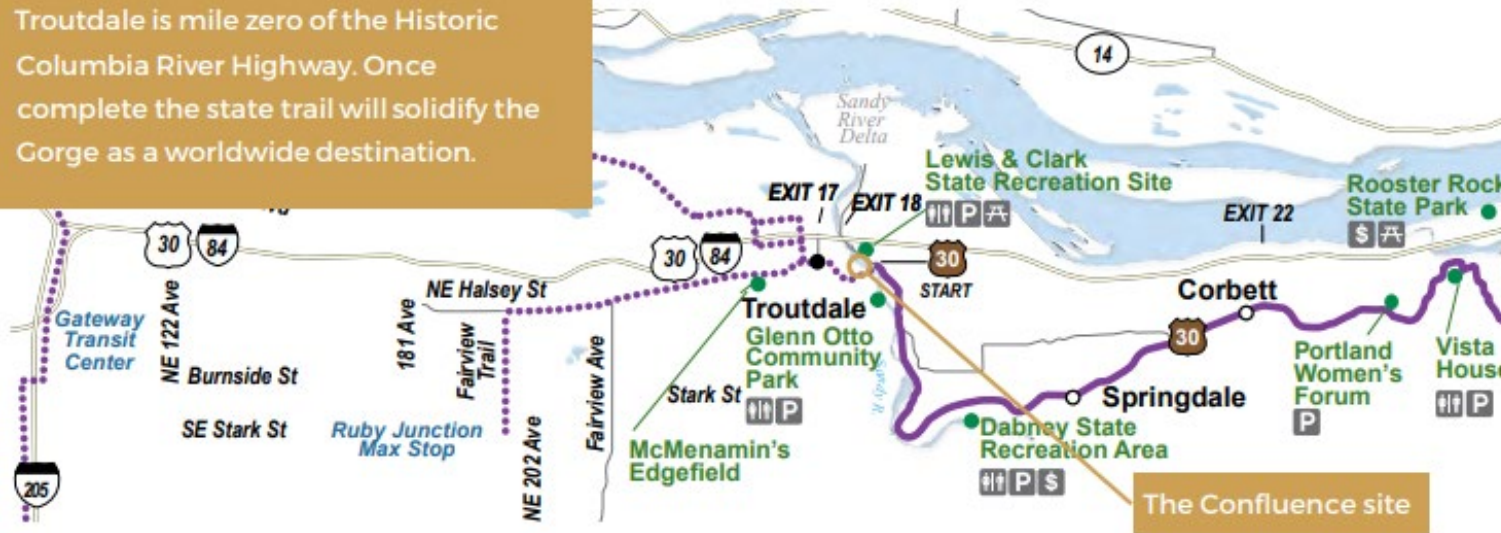

Presenter:
Frank Stevens
Troutdale Resident
Transportation Researcher

Troutdale is seeking funds to construct a bike hub at the Gateway to the Gorge Visitor Center as part of the the Gorge Hub bike program

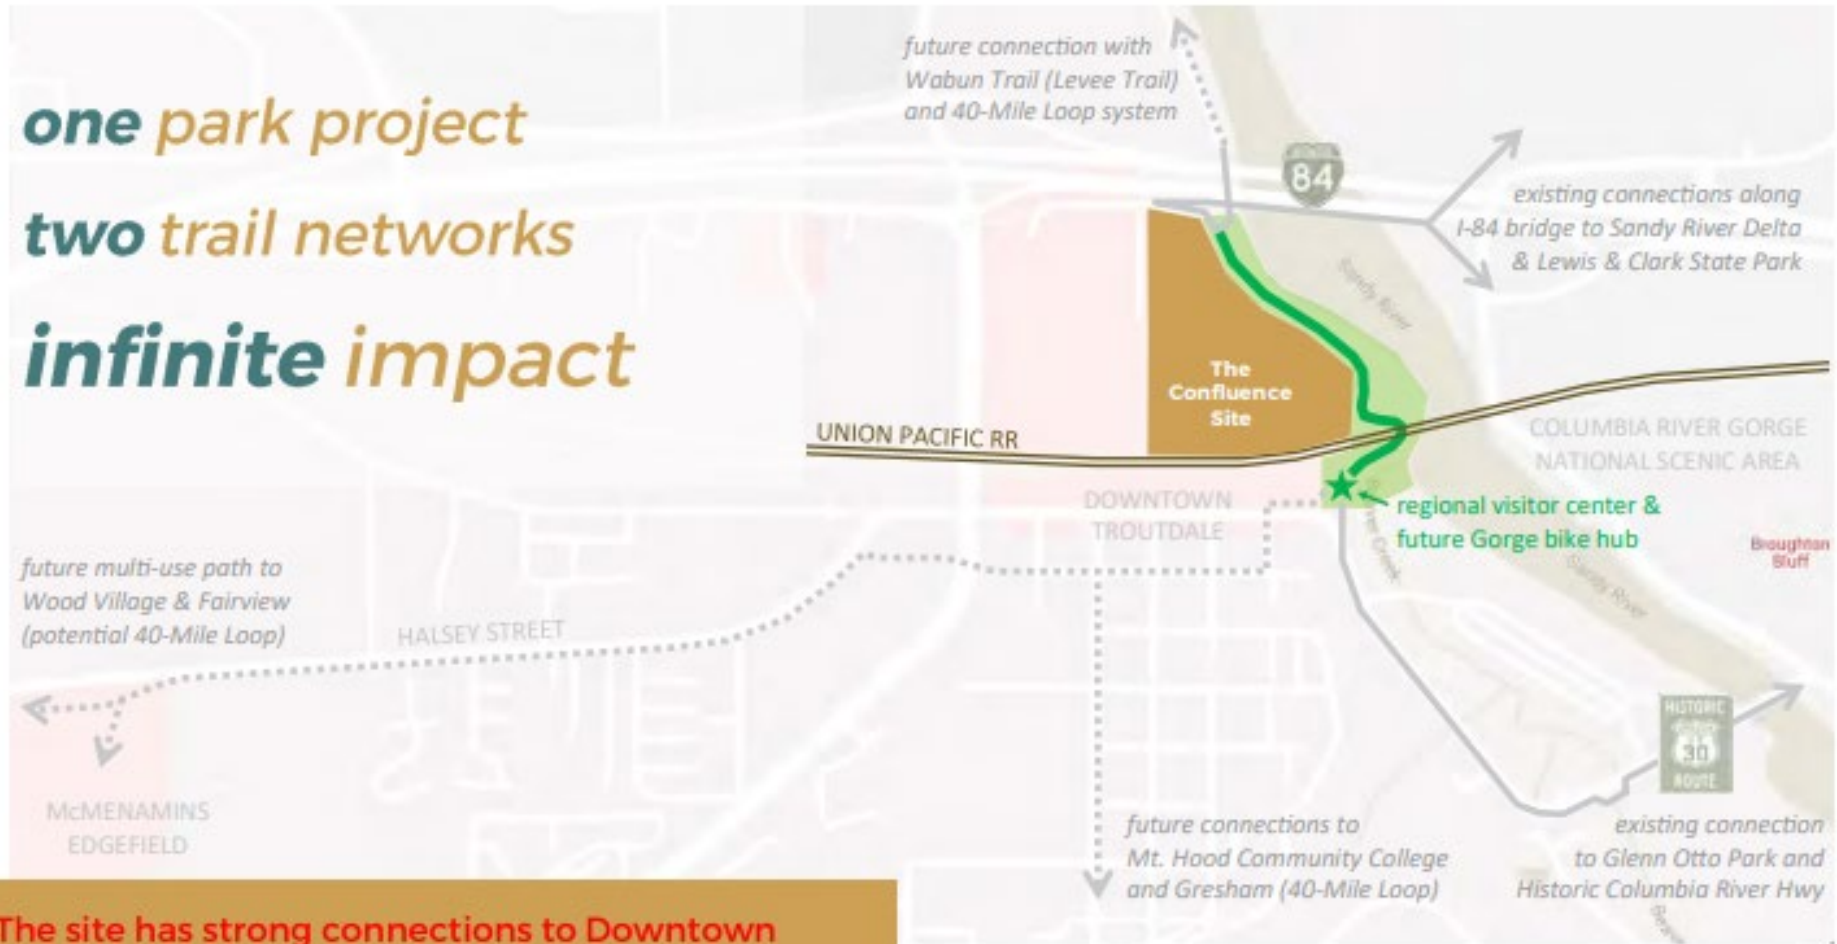

Troutdale is mile zero of the Historic Columbia River Highway. Once complete the state trail will solidify the Gorge as a worldwide destination.

Historic Columbia River Highway State Trail map

one park project
two trail networks
infinite impact

The site has strong connections to Downtown and outdoor recreation.

A Tale of Two Missing Bollards

Independent Study of Ch'ak Ch'ak Shared Use Path and connecting routes (I84 SUP) , June 10, 2024 – Sept 10, 2024

257TH/BUXTON AND HALSEY (EHCRH)

Transportation Observations from a local lens

The Intersection of Buxton and Halsey (EHCRH)

- Impact of Stark Street Closure
- Increased Thru Traffic
- Speeds/Visibility

New Pedestrian Destinations:

The Highlands/New Apartments

- Peak hours (50 + ped crossings of Buxton)
- 257th/ 2nd Street Crossing

Conclusion:

- Does Multnomah County Transportation Plan reflect area changes?
- Need more detailed data on number of users at location (quantitative and qualitative studies, seasons)
- Need to implement Safe Streets/Complete Streets/Tactical Urbanism techniques
- Look at pilot projects for quick fix as an opportunity for local user input
