

ROAD TRIP by Bike

- Troutdale: Stark Street Bridge/HCRH/Woodard Road
- February, 2025
- Presenter:
Frank Stevens, Troutdale Resident
xfstevens@gmail.com

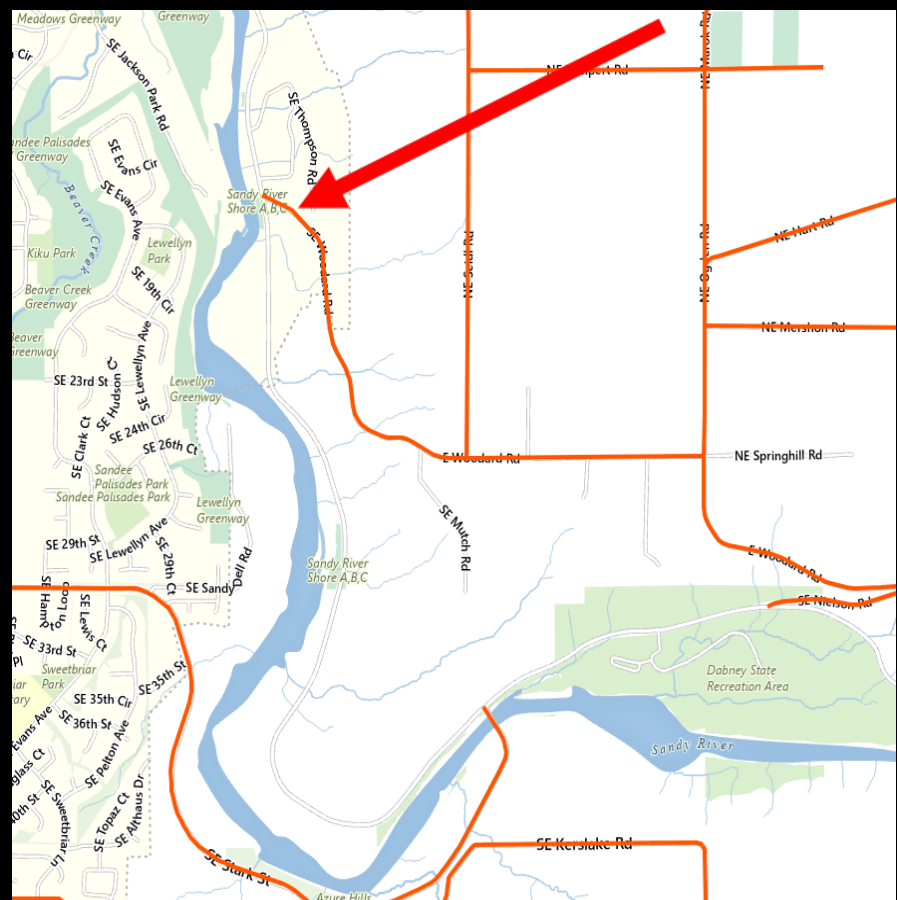

Week of February 2-8

Stark Street Bridge Repair

- The Stark Street Bridge is closed due to a collapsed retaining wall on the northwest approach. Repairs are underway.
- One lane of the Historic Columbia River Highway is closed near the bridge. Temporary traffic signals are in place to control the flow of traffic.
- Speed in the work zone is reduced to 45 miles per hour.
- Please detour to the Sandy River Bridge in Troutdale.
- Learn more about the project: [Stark Street Bridge Retaining Wall Repair](#).

- ❑ **Observations:**
Light only changed with a vehicle present/not enough time
No bike in roadway/ dedicated bike lanes at one way section
No bikes in roadway or speed decrease warning
Speed Limit 45mph?

WOODARD ROAD

Local bike access to the Gorge

Impact of Stark Street closure on Woodard Road/HCRH includes increased vehicle volume, vehicle speeds, the loss of share the road and speed limit signage, unsafe conditions for local bike route.

Thanks for Listening
