Michael Eglinski
Audit Manager
Kansas City Auditor's Office

Vanessa D'Souza
Deputy City Auditor II
City of Stockton Auditor's Office

It is very important to the credibility of this office that we meet *Government Auditing Standards*. Your recent review conducted according to the guidelines recommended by the National Association of Local Government Auditors assured me that there are systems in place to meet standards and that these systems were working effectively during the time period April 1, 2002 through April 1, 2005. I am pleased that you found our Office in conformance with *Government Auditing Standards*.

I also appreciate the suggestions that you have made in regards to improving our operations. Simply put, you have recommended that we better follow procedures that are already in place. I am in complete agreement.

Thank you for the invaluable service you have performed. I found the process to be constructive and insightful. It is always valuable to have peers review and comment on your work. This was even more meaningful because of the quality of your professionalism.

Sincerely,

Suzanne Flynn
Multnomah County Auditor
