

2023 REGIONAL TRANSPORTATION PLAN UPDATE

Transportation shapes our communities and our everyday lives. Access to transit, biking and walking connections, and streets and highways where traffic flows allows us to reach our jobs, schools and families. It connects us to the goods and services we depend on and helps keep nature and recreation opportunities within reach. Investment in the transportation system to provide safe, healthy, accessible and reliable options for getting around is important for the region’s long-term prosperity and our quality of life.

As the federally-designated Metropolitan Planning Organization (MPO), Metro is responsible for leading and coordinating updates to the [Regional Transportation Plan](#) every five years to address the needs of our growing and changing region. The RTP uses an outcomes-based planning framework that is used to guide planning and investment in the region’s transportation system. The plan was last updated in 2018. The next update is due by Dec. 6, 2023, when the current plan expires.

During 2022 and 2023, Metro will work closely with local jurisdictions, port districts, transit providers and federal and state agencies to update the RTP through the year 2045. This document provides background about the RTP and timeline for the update.

WHAT IS THE REGIONAL TRANSPORTATION PLAN?

The RTP is the greater Portland area’s long-range blueprint for guiding planning and investments in the region’s transportation system for all forms of travel – motor vehicle, transit, biking, and walking – and the movement of goods and freight. The 2018 RTP established four overarching priorities – equity, safety, climate and congestion – eleven goals and supporting objectives, performance targets and policies. Together these elements guide planning and investment decisions to meet the transportation needs of the people who live and work in greater Portland.

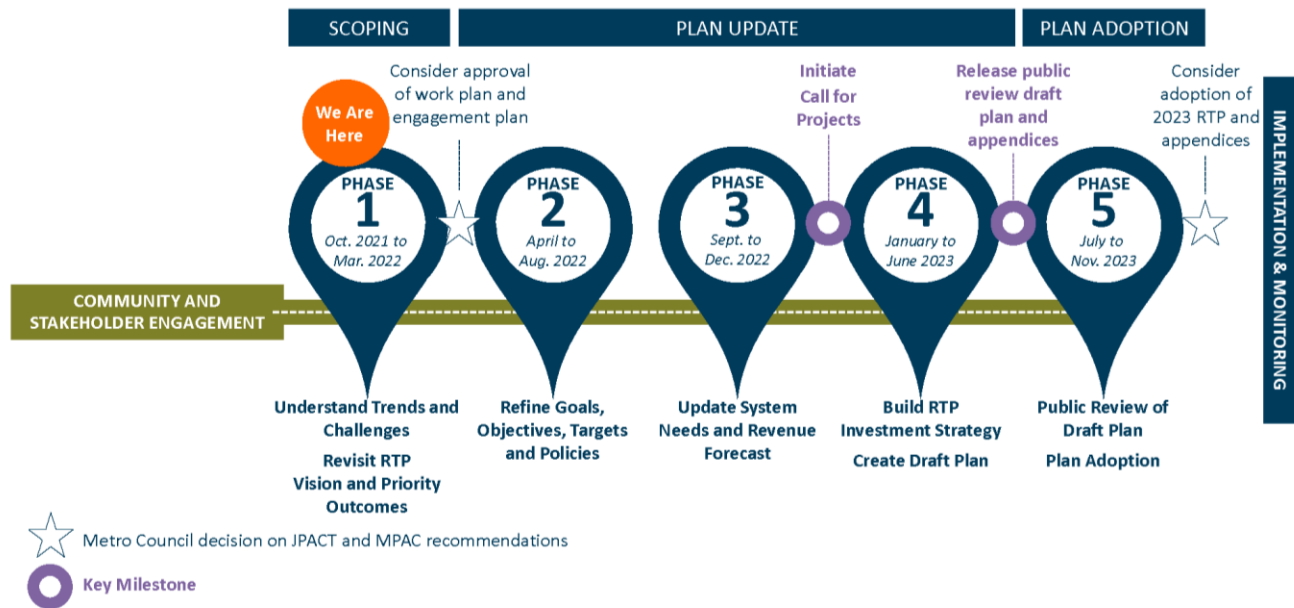

The plan identifies current and future regional transportation needs, investment priorities to meet those needs, and local, regional, state and federal transportation funds the region expects to have available to make those investments. The plan contains:

- **a long-term vision** for the region’s transportation system and **four overarching priorities**;
- **eleven goals and supporting objectives and performance targets** that identify what outcomes the region wants to achieve and indicators to measure progress;
- **policies** that guide decisions and actions in pursuit of our desired outcomes;
- **a financial plan** that identifies how the region will pay for investments; and
- **an investment strategy** that includes major local, regional and state transportation investment priorities that meet transportation needs and help accomplish the vision and desired outcomes identified in the plan.
