Smartphones Enable Smart Supervision

Mike Kingery -owner/developer of OSM

Hon. Ann Aiken
Reinventing Reentry, Reducing Recidivism

Why won't
somebody just
create an app for
that already?

FOR EXAMPLE...

- A criminal justice smartphone or app that offers a direct link to services, including:
 - * Alcohol and/or drug counseling
 - * Housing assistance
 - * Transportation
 - * Childcare/parenting classes
 - * Suicide intervention
 - * Educational, vocational, and medical resources
 - * Probation office
 - * Urinalysis schedule
- This tool could be used to collect data, in order to refine our evidence-based practices – it would also assist participants in maintaining compliance with their supervision

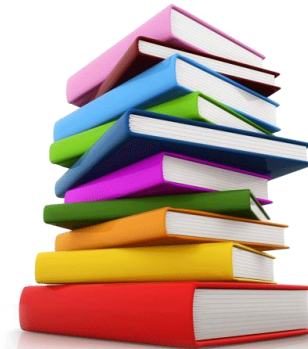

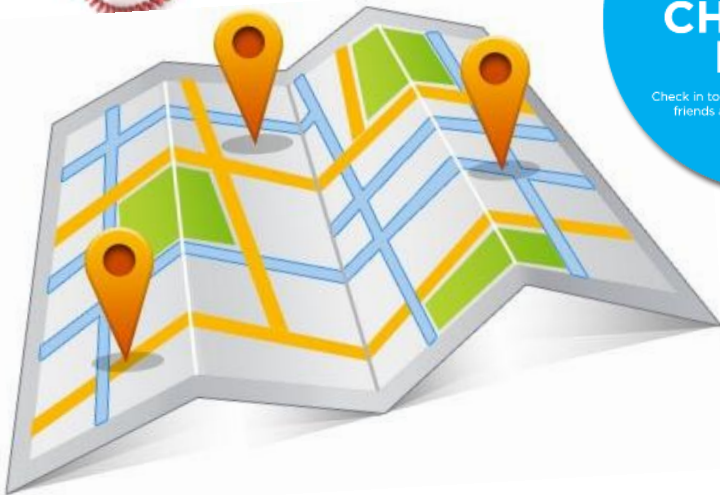

The *smartphone* is the perfect vehicle to

- **distribute resources,**
- **collect data, and**
- **help change behavior.**

There's an app for that!

ELECTRONIC TECHNOLOGY

“punishment”
“restrictive”
“negative”
“home confinement”
“financial burden”
“intrusive”

“resources”
“interactive”
“responsive”
“inconspicuous”
“rehabilitative”
“supportive”
“customizable”
“outreach”

Questionnaire / Reports

- **Customizable questions**
- **Create templates for offense type**

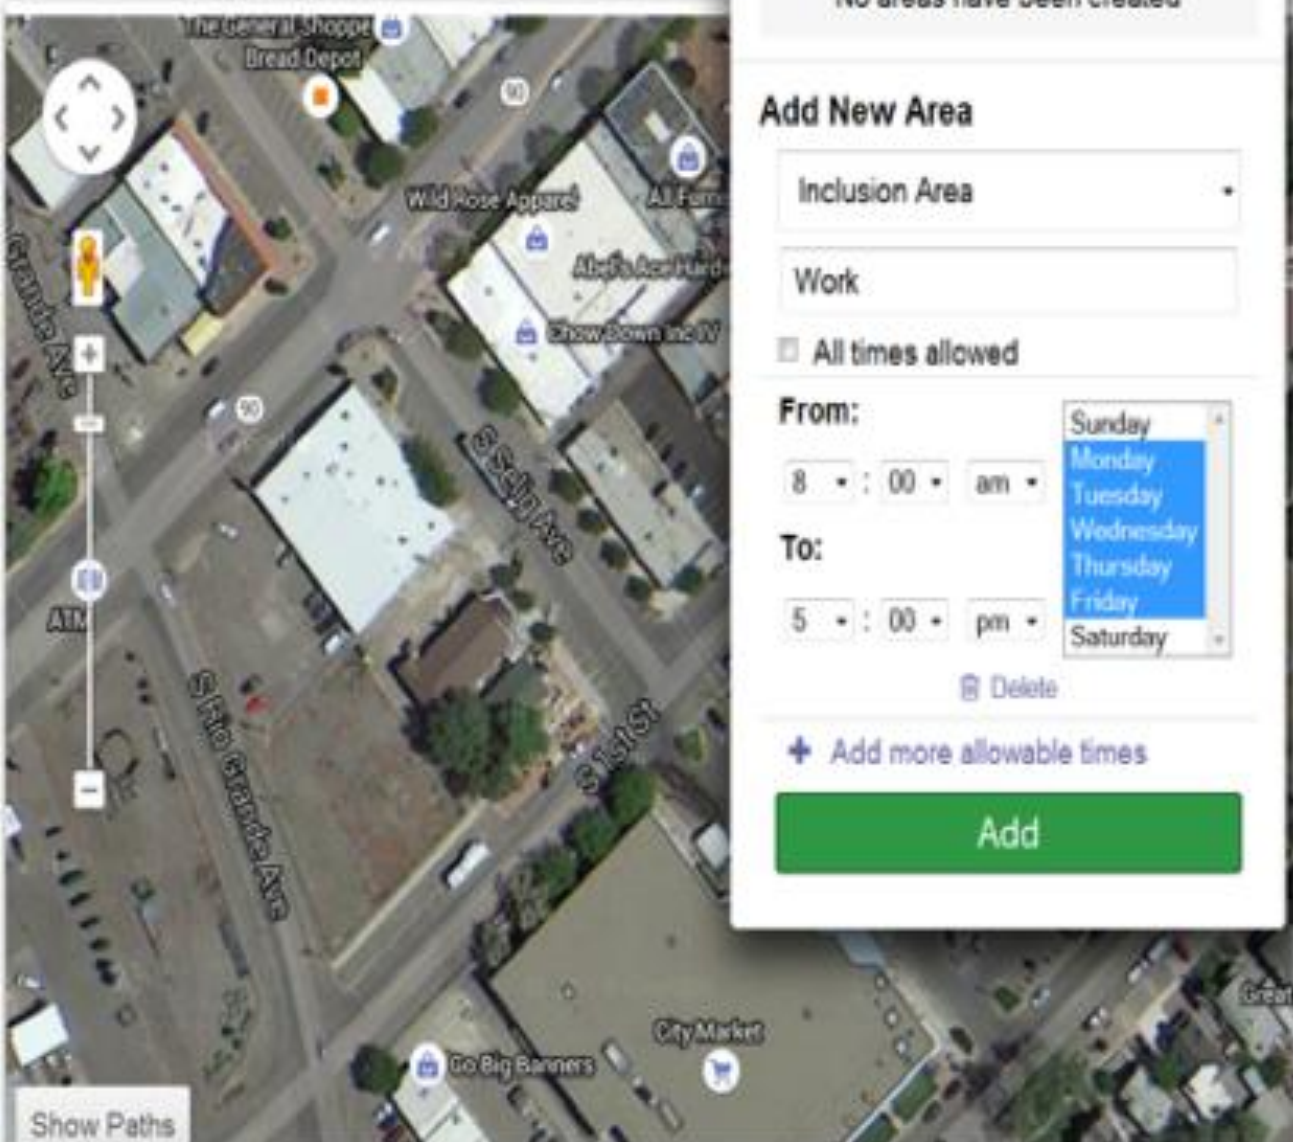

- **Replaces:**
 - **Monthly reports**
 - **Office visits**
 - **Phone call reporting**
 - **Online reporting**

- **Added value:**
 - **Homework**
 - **Preparing for office visit**
 - **Out of state reporting**
