

The background of the slide is a monochromatic purple-tinted photograph of a desert landscape. It features several large, rolling sand dunes that stretch across the horizon. The lighting creates soft shadows and highlights on the curves of the dunes, giving them a three-dimensional appearance. The sky is a uniform, lighter shade of purple, blending into the dunes.

PROJECT OVERVIEW

Project outcome

A fully realized vision that will lead to a strategic plan across the public safety systems that:

- grows health and housing responses,
- shrinks the legal system footprint, and
- outlasts turnover and election cycles.

ABOUT TERRITORY

A close-up photograph of a hand holding a pencil, drawing a line on a wooden surface. The image is overlaid with a semi-transparent purple filter. The hand is positioned in the upper left, and the pencil is angled downwards towards the right, creating a line on the wood.

We're practiced

We have facilitated and managed hundreds of remote strategy and planning meetings and programs engagements.

We Work Forward

Pioneers of the Work Forward movement,
we've been working as a distributed workforce for years.

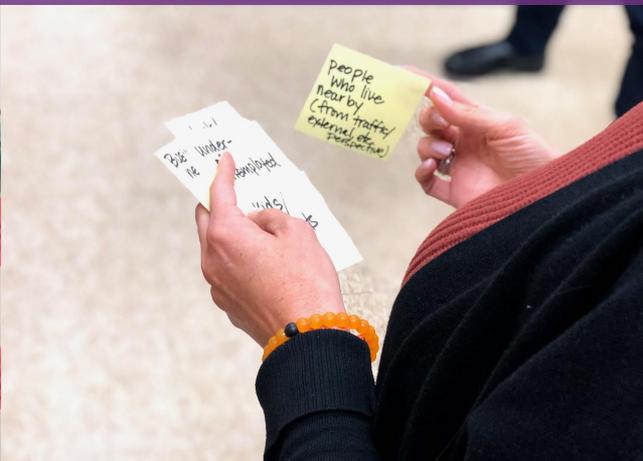

We've got the chops

Our approach is personalized and experiential, not prescriptive and formulaic. We prefer playing jazz with you over delivering rote programs.
