

Detention Services

RE: Juvenile Detention Virtual Visitation

Dear Family and Friends,

Please find the virtual visiting guidelines below. We kindly ask that you familiarize yourself with these guidelines before your scheduled visit.

We look forward to your visit. To ensure a safe and positive environment for everyone, we ask that you follow the guidelines outlined below. Maintaining these standards helps us keep our visitation program running smoothly; please note that actions inconsistent with these goals may require us to end a visit early or review future visiting arrangements.

Virtual Visiting Guidelines:

- Pre-arranged visitors will be visually verified by staff, who will confirm the identity of each attendee by checking their identification.
- Visitors are not permitted to add individuals to the session who were not listed on the reservation.
- No nudity, use of drugs, alcohol, or smoking paraphernalia is permitted during the visit.
- Social media and/or internet websites should not be accessed and displayed to the youth during the visit.
- Visitors must be dressed appropriately as expected with in-person visiting.

To help your visit go as smoothly as possible, please also keep in mind our standard visiting expectations. You can find the full list of these guidelines on our [public website](#) to help you prepare before you arrive. We want to ensure you have all the information you need for a successful and meaningful visit.
