

# PUBLIC MEETINGS SCHEDULED

## Multnomah County Code Update Project Community Meetings

You are invited to attend any of the following community meetings for the Multnomah County [Zoning Code Improvement Project](#), a vital initiative to modernize and update the County's Zoning Code.

Attendees will gain an understanding of the project's background, timeline, and key findings to date. We will also provide information to help you understand the zoning code is, why it exists, how Multnomah County's code is organized, and how it impacts County residents and property owners.

The project team has identified a number of issues and recommendations to improve the Code, including the need to simplify complex narratives and to make discretionary language clear and objective, especially for housing development standards. The goal of the project is a clearer, more flexible, and easier to use zoning code.

## Your Input is Valuable!

These upcoming meetings are a crucial opportunity for community members to engage in and help shape the Code update process. We encourage your questions and discussion to help us refine amendment options. We want to know if the identified issues resonate with you, if any other key issues were missed, and which code issues are your highest priorities to address. We look forward to your participation and insight.
